PROGRAMME OVERVIEW

Build Future-Ready Professional Skills in Occupational Health & Safety

Practical | Job-Oriented | Industrial Hygiene | Medical Surveillance | Ergonomics | Patient Safety | ISO 45001 | AI Literacy

Occupational health is the half of workplace safety that does not produce an incident report. Its harms accumulate — in lungs, hearing, joints and mental health — and they are found by surveillance and exposure measurement rather than by investigation after the fact.

The GIHS Occupational Health & Safety programme covers occupational health and safety fundamentals; industrial hygiene assessment, sampling and monitoring; medical surveillance and occupational disease awareness; preventive measures, workplace wellness and ergonomics; patient safety and clinical guideline awareness; HSE management, HIRA, emergency preparedness and disaster management; ISO 14001 and ISO 45001 and legal requirements; and safety and medical audit concepts.

> **"We Teach What the Job Requires."**
>
> GIHS focuses on practical competency and workplace application, with responsible AI literacy for analysis, documentation, monitoring and reporting while human accountability is maintained.

Why This Programme Stands Out

- Occupational health and safety fundamentals
- Industrial hygiene assessment, sampling and monitoring
- Medical surveillance and occupational disease awareness
- Preventive measures, workplace wellness and ergonomics
- Patient safety and clinical / medical guideline awareness
- HSE management, HIRA and emergency preparedness
- Disaster management
- ISO 14001 and ISO 45001 and legal requirements
- Safety audit and medical audit concepts
- Relevant across industry and healthcare settings alike
- NEW dedicated AI module for Occupational Health & Safety

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 9 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 9 is the new Artificial Intelligence module.

MODULE 01 Occupational Health & Safety Foundations

The discipline, the management of it, and the human factors that shape exposure.

- Occupational health and safety
- Occupational health and management
- Workplace wellness
- Human factors
- Advanced ergonomics

MODULE 02 Assessment, Sampling & Monitoring

Measuring exposure properly — the basis of every later judgement.

- IH assessment, sampling and monitoring
- Assessment and control of dust hazards at a workplace
- Clinical toxicology

MODULE 03 Medical Surveillance & Disease Management

Detecting occupational harm while it is still reversible.

- Disease management
- Medical surveillance
- Preventive measures
- Occupational diseases and diagnosis

MODULE 04 Clinical Process & Patient Safety

The healthcare face of occupational health — where the workplace is a hospital.

- Medical process
- Patient management
- Primary management of medical guidelines
- Clinical guidelines
- Patient safety

MODULE 05 Industry-Specific Occupational Safety

Exposure profiles change with the industry, and so do the controls.

- Occupational safety management in chemical, petrochemical and petroleum industry
- Safety in textiles, pharma, engineering, construction and other industries
- Safety in the unorganised sector
- Safety in excavation

MODULE 06 Environment & Waste Management

Biomedical and industrial waste streams, and their wider impact.

- Biomedical waste management
- All kinds of waste management
- Environmental Impact Assessment

MODULE 07 Risk Assessment, HSE & Emergency Preparedness

Bringing occupational health inside the wider safety management system.

- HIRA and HAZOCHEM
- HSE management and integration of HSE
- Accident and incident investigation
- Emergency preparedness
- Disaster management

MODULE 08 Standards, Law & Audit

How the system is verified, and what the law requires of it.

- ISO 14001 and ISO 45001
- OHSAS standards and national standards
- Legal requirements in environment, health and safety
- Safety audits and medical audits

MODULE 09 · NEW Artificial Intelligence in Occupational Health & Safety

Health Trend Analytics · Exposure Data · Digital Compliance · Responsible AI

- Introduction to AI, Machine Learning and Generative AI in occupational health
- AI-assisted occupational-health trend analytics
- AI support for exposure-data analysis and risk prioritisation
- … and 17 further topics — the full module is set out on page 5

The Programme at a Glance

9
Modules, including the new AI module

3 / 4 / 12
Months — Certificate, Fast Track or PG Diploma

100%
Online & distance, study at your own pace

Lifetime
Free personal expert assigned to you

MCQ + Project
Online exam plus a 30-page project

2
International certificates awarded and shipped

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 09 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Occupational Health & Safety

Health Trend Analytics · Exposure Data · Digital Compliance · Responsible AI

This dedicated module introduces practical and responsible applications of Artificial Intelligence, Machine Learning and Generative AI in occupational health and safety. AI supports analysis, documentation, monitoring and reporting — not professional judgement, medical decision-making, legal compliance or approved organisational procedure.

Key Topics Covered

- Introduction to AI, Machine Learning and Generative AI in occupational health
- AI-assisted occupational-health trend analytics
- AI support for exposure-data analysis and risk prioritisation
- AI for ergonomics and fatigue-risk analytics
- AI-assisted medical-surveillance data organisation under proper governance
- AI for leading indicators and workplace-wellness analytics
- AI support for audit, compliance and action tracking
- AI-assisted sampling-plan and monitoring-schedule preparation
- AI for noise, dust, heat and chemical exposure trend review
- AI-assisted occupational-illness and absence trend analysis
- AI support for HIRA, JSA and risk-register development
- AI-assisted emergency scenario development and drill planning
- AI support for ISO 45001 audit preparation and finding classification
- Generative AI for worker education and health and safety communication
- Prompt engineering for professional EHS and occupational-health tasks
- AI-assisted data summarisation and trend identification
- Verification of AI-generated technical content against source data and standards
- Recognising hallucinations, bias and unsupported conclusions
- Privacy and sensitive-data governance for worker health information
- Human-in-the-loop review and documentation of professional decisions

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

Worker health information is sensitive personal data, and occupational-health conclusions have medical consequences. AI here organises, analyses and drafts; diagnosis, fitness decisions, exposure judgements and clinical advice remain with appropriately qualified professionals, under the confidentiality rules that apply to health records.

What This Module Adds to Your Career

Occupational health accumulates surveillance results, exposure readings, absence data and wellness metrics that rarely get connected to each other. AI makes those connections visible — which department, which task, which shift — and turns reporting from a retrospective chore into a preventive tool. The module gives the confidentiality and verification obligations equal weight, because in this field a data breach and a fabricated exposure limit are both serious failures.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Analyse a mock exposure dataset and identify trends worth investigating
- Build an occupational-health leading-indicator dashboard concept
- Prepare an ISO 45001 audit checklist and verify it against the standard
- Draft a worker health-communication piece from verified source information
- Review an AI-generated occupational-health summary for unsupported conclusions

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

Learning is positioned around real workplace requirements. Practical exercises run through risk assessments, audit checklists, incident scenarios, compliance reviews, KPI dashboards, case studies, SOPs, training content, action tracking and management reporting — and the AI-enhanced versions of the same tasks: reviewing an AI-generated risk assessment for errors, building a trend-analysis dashboard, improving a toolbox talk, and checking whether an AI recommendation is actually supported by verified technical information.

Career-Relevant Skills You Will Develop

- Occupational health and safety fundamentals
- Industrial hygiene assessment and monitoring
- Medical surveillance awareness
- Occupational disease recognition
- Preventive measures and workplace wellness
- Ergonomics and fatigue risk
- Patient safety awareness
- HIRA and HSE management
- Emergency preparedness and disaster management
- ISO 45001 and legal-compliance awareness
- AI-assisted occupational-health analytics

Career & Professional Pathways

The current GIHS course page lists **Occupational health, OHS, industrial hygiene and workplace-wellness pathways**. The programme can also support:

- Occupational health and safety support roles
- Industrial hygiene and exposure monitoring support
- Workplace wellness programme coordination
- EHS / HSE support and coordination
- Occupational health audit and compliance support
- Ergonomics and human-factors support
- Patient safety and healthcare OHS roles
- Digital occupational-health analytics support

Actual job eligibility, statutory appointments and regulated responsibilities — especially any medically accountable role — depend on prior qualifications, professional registration, experience, employer criteria and applicable law.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

Every industry that employs people needs EHS — GIHS learners work in pharmaceuticals, chemicals, oil and gas, engineering, automotive, construction, IT, food, hospitality and healthcare alike.

Pharmaceutical & chemical plants
Process safety, hygiene and compliance

Oil, gas & petrochemicals
HSE, permit systems and major-hazard control

Automotive & heavy engineering
Plant safety, ergonomics, audits and training

Manufacturing & FMCG
Risk assessment, incident prevention and management systems

Construction & infrastructure
Contractor safety, site compliance and project HSE

IT, services & facilities
Workplace safety, fire preparedness and ESG reporting

Food processing & hospitality
Food safety, HACCP and quality management

Hospitals & healthcare
Biomedical waste, occupational health and fire safety

Consulting, audit & certification
Assessments, ESG, training and audits

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Occupational health is increasingly outsourced — surveillance coordination, ergonomics, wellness programmes and audit support are all delivered by independent providers.

- Provide occupational-health programme coordination and surveillance support
- Deliver ergonomics assessments and workplace-wellness services
- Offer OHS audit, compliance and documentation support
- Build worker health-education and communication programmes
- Support healthcare employers with patient-safety and staff-safety systems

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- All graduates
- Engineers of every discipline
- MBBS & BHMS professionals
- EHS / HSE / Safety professionals
- Chemical, process, mechanical and instrumentation professionals
- Pharmaceutical and chemical-industry professionals
- Oil & gas and petrochemical professionals
- Engineering, manufacturing and project professionals
- Quality, operations and compliance professionals
- Sustainability, CSR and ESG professionals
- Professionals working with hospitals & healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

What does the programme cover?

OHS fundamentals, industrial hygiene assessment, sampling and monitoring, medical surveillance, occupational disease, preventive measures, wellness, ergonomics, patient safety, HSE management, HIRA, emergency preparedness, ISO standards, legal requirements and audit concepts.

Is this an industrial or a healthcare programme?

Both. It covers industrial exposure and hygiene work, and also patient safety and clinical guideline awareness for healthcare workplaces.

Does it cover medical surveillance?

Yes, together with occupational disease awareness — the two halves of finding harm early.

Does it cover ergonomics?

Yes, alongside preventive measures and workplace wellness.

How is AI used in occupational health?

Trend analytics on health and exposure data, ergonomics and fatigue analytics, surveillance-data organisation under proper governance, audit and action tracking, and worker health communication.

Is worker health data safe to use with AI?

Only under the organisation's data-protection rules and with proper de-identification. The module treats privacy and sensitive-data governance as a core competency.

Does this confer a medical or statutory appointment?

No. Medically accountable roles require the relevant medical qualification and registration.

Can working professionals enrol?

Yes. The programme is delivered online and by distance learning, with a Fast-Track option.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.
