PROGRAMME OVERVIEW

# Build Future-Ready Knowledge in Mental Health & Addictions

Practical | Job-Oriented | Mental Health | Addiction | Prevention | Counselling Concepts | AI Literacy

The GIHS Mental Health & Addictions programme provides structured professional learning in mental health, addictive disorders and behavioural healthcare. It helps learners understand psychological and behavioural perspectives, addiction models, co-occurring conditions, prevention and intervention concepts, and the impact of mental-health and substance-use challenges on individuals, families, workplaces and communities.

The programme is built for anyone who deals with employees, clients, family members or friends affected by mental health and addiction — through their workplace, volunteer activities or personal situations — and for professionals preparing for entry-level positions in agencies providing behavioural healthcare.

> **"Understand · Support · Refer · Grow Professionally"**
>
> GIHS focuses on professional skill development and practical awareness. The programme builds communication, behavioural-health and addiction-support knowledge while maintaining clear professional boundaries and appropriate referral to qualified mental-health and medical professionals.

## Why This Programme Stands Out

- Foundations of mental health and addiction
- History, philosophy and trends in addiction counselling
- Ethical and legal considerations specific to the field
- Professional roles, functions, settings and interdisciplinary collaboration
- Models and theories of substance-use and other addictions
- Behavioural, psychological, physical and social effects of addictive disorders
- Co-occurring mental-health and substance-use conditions
- Risk and resilience factors
- Crisis, disaster and trauma awareness
- Prevention and intervention concepts
- NEW dedicated AI module for mental health & addiction support
- Certificate, PG Diploma and Fast-Track learning pathways

REVISED SYLLABUS

# Curriculum, Module by Module

The full GIHS syllabus, regrouped into 8 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 8 is the new Artificial Intelligence module.

## MODULE 01 Foundations of Addiction Counselling

Where the field came from and how its thinking has changed — the context for everything that follows.

- History, philosophy and trends in addiction counselling
- Foundations and core knowledge
- The scope and purpose of addiction support work

## MODULE 02 Ethics, Law & Professional Practice

The boundaries of the role, and how addiction professionals work alongside the rest of the clinical team.

- Ethical and legal considerations in addiction counselling
- Roles, functions and settings of addiction counsellors
- Relationship between addiction counsellors and other mental-health professionals
- Professional organisations, competencies, preparation standards and credentials

## MODULE 03 Models & Theories of Addiction

The competing explanations for why addiction happens, and what each implies for intervention.

- Models and theories of addiction related to substance use
- Other (non-substance) addictions
- Disease concept and aetiology of addiction
- Aetiology of co-occurring disorders

## MODULE 04 Effects of Psychoactive Substances

What substances actually do — to the body, the mind, the behaviour and the people around the user.

- Behavioural and psychological effects of psychoactive substances
- Physical health and social effects of addictive disorders
- Impact on the user and on significant others

## MODULE 05 Co-occurring Disorders & Differential Awareness

The diagnostic confusion that defines real cases — addiction that looks like illness, and illness that looks like addiction.

- How addictive disorders can mimic medical and psychological disorders
- How medical and psychological disorders can coexist with addiction
- Impact of co-occurring substance-use disorders on medical and psychological conditions
- Diagnosis-related concepts

### MODULE 06 Risk, Resilience, Trauma & Crisis

Why some people and communities are more vulnerable, and how crisis events change the picture.

- Factors that increase risk for psychoactive substance-use disorders
- Factors that build resilience in a person, community or group
- Impact of crises, disasters and trauma-causing events on people with addictions
- Operation of emergency management systems within addiction agencies and communities

### MODULE 07 Counselling, Prevention & Intervention

The practical response — what prevention and intervention look like across individual, group, family and community contexts.

- Counselling knowledge and concepts
- Prevention strategies and programmes
- Intervention approaches and assessment concepts
- Self-help strategies within individual, group, family and community contexts

### MODULE 08 · NEW Artificial Intelligence in Mental Health & Addiction Support

AI-Assisted Behavioural Health Education · Documentation · Prevention · Human Oversight

- Introduction to AI, Generative AI and Large Language Models in behavioural healthcare
- AI-assisted mental-health and addiction education materials
- AI support for structured intake and non-diagnostic information organisation
- … and 15 further topics — the full module is set out on page 5

## The Programme at a Glance

**8**
Modules, including the new AI module

**3 / 4 / 12**
Months — Certificate, Fast Track or PG Diploma

**100%**
Online & distance, study at your own pace

**Lifetime**
Free personal expert assigned to you

**MCQ + Project**
Online exam plus a 30-page project

**2**
International certificates awarded and shipped

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 08 · NEW HIGHLIGHT MODULE

# Artificial Intelligence in Mental Health & Addiction Support

AI-Assisted Behavioural Health Education · Documentation · Prevention · Human Oversight

This module introduces responsible applications of Artificial Intelligence, Natural Language Processing and Generative AI in mental-health education and addiction-support environments. It focuses on education, communication, documentation, prevention, programme support and professional productivity — not autonomous diagnosis, psychotherapy, crisis management or treatment.

## Key Topics Covered

- Introduction to AI, Generative AI and Large Language Models in behavioural healthcare
- AI-assisted mental-health and addiction education materials
- AI support for structured intake and non-diagnostic information organisation
- AI-assisted psychoeducation, recovery-support and prevention resources
- AI support for behavioural-health documentation and structured case summaries
- AI-assisted identification of themes in de-identified programme or survey data
- AI concepts for population-level risk and prevention analytics
- AI support for community mental-health and substance-use awareness campaigns
- AI-assisted relapse-prevention education and wellness checklists
- AI support for referral-resource organisation and service navigation
- AI-assisted literature review and evidence organisation
- AI for multilingual and health-literacy-sensitive communication
- Generative AI for educational scenarios, role plays, quizzes and training materials
- Prompt engineering for behavioural-health educators and support professionals
- Recognising AI hallucinations, unsafe mental-health advice and fabricated evidence
- Bias, stigma, fairness and cultural sensitivity in AI-generated content
- Privacy and confidentiality for mental-health and substance-use information
- Human-in-the-loop review and professional accountability

THE RESPONSIBLE BOUNDARY

**Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.**

AI does not independently diagnose mental disorders, determine addiction treatment or replace qualified therapists and clinicians. Urgent or high-risk situations require immediate human assessment and established emergency and crisis procedures — never reliance on AI.

## What This Module Adds to Your Career

Professionals increasingly encounter AI-generated health information in their work and in what their clients bring them. Understanding its benefits, biases, hallucinations, privacy risks and limitations allows behavioural-health workers to use the technology responsibly and to recognise when an AI-generated claim is stigmatising, outdated or simply invented.

## AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Review an AI-generated psychoeducation handout for stigma or misinformation
- Create a substance-use prevention campaign for a defined community
- Structure a de-identified case summary
- Identify hallucinated clinical claims in generated content
- Develop referral and support-resource templates

HOW YOU STUDY & WHERE IT TAKES YOU

# Study Method, Certification, Skills & Career Pathways

## Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

## Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

## Learning Mode, Assessment & Certification

| | |
|---|---|
| **Mode** | Online and distance learning, designed for working professionals. |
| **Assessment** | Online and distance examinations (MCQ / theoretical) and/or projects. |
| **Certification** | GIHS certificate awarded to successful candidates on completion of applicable requirements. |
| **Career support** | Placement support and CV-forwarding assistance for successful candidates. |
| **Verification** | Employers can confirm certificate authenticity through the official GIHS verification process. |

**Verified by GIHS itself — not by a third party.** Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

## Practical & Job-Oriented Learning

The programme connects behavioural-health concepts with practical applications — case-based learning, addiction risk and resilience discussion, prevention planning, ethical scenarios, communication strategy, co-occurring-condition awareness, community support and appropriate referral.

## Career-Relevant Skills You Will Develop

- Mental-health and addiction foundations
- Addiction theories and substance-use awareness
- Ethical and legal awareness
- Behavioural-health communication
- Risk and resilience concepts
- Co-occurring-disorder awareness
- Prevention and intervention knowledge
- Trauma and crisis awareness
- Community and workplace mental-health education
- AI-assisted education and documentation literacy
- Responsible privacy, bias and verification practice

## Career & Professional Pathways

The current GIHS course page lists **Mental Health Nurse, Mental Health Therapist, Nurse Associate and Substance Abuse Counsellor**. The programme can also support:

- Behavioural health / addiction programme support
- Mental health awareness and education
- Community or NGO programme support
- Workplace mental health awareness
- Substance-use prevention programme support
- Recovery and wellness education support within appropriate scope
- Professional upskilling for qualified nurses, counsellors and healthcare personnel

*These titles can be regulated or credential-dependent. Eligibility depends on prior recognised education, supervised clinical experience, professional registration or licensing and employer or jurisdiction requirements. GIHS professional education complements existing qualifications but does not independently confer licensure to practise psychotherapy, clinical counselling, nursing, psychiatry or other regulated mental-health professions.*

PLACEMENT & CAREER ENHANCEMENT

# What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

## Exclusive FREE CV & Interview Coaching — worth ₹9,999

**FREE**
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

**Professional resume building**
Build a CV that reads the way recruiters in healthcare actually screen.

**Interview skills coaching**
Practise and sharpen how you present your qualification and your new AI literacy.

**Profile posted on TopCV**
Your profile goes live on topcvcoach.com, in front of a large employer network.

**No extra cost**
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

## Where Our Graduates Are Making an Impact

GIHS learners go on to contribute across healthcare and the industries that support it — in clinical services and documentation, diagnostics, public health, administration, technology and their own ventures.

**Hospitals & clinics**
Departmental support, documentation, quality and coordination

**Diagnostic & imaging services**
Technical support, workflow and reporting quality

**Public health systems**
Community programmes, health education and project support

**Healthcare BPO & documentation**
Transcription, scribing, coding and records

**Healthcare IT & health-tech**
Clinical systems, data services and digital health

**Pharmaceutical & device companies**
Medical affairs, training and field support

**Insurance, TPA & claims**
Medical documentation, review and coordination

**NGOs & community programmes**
Awareness, prevention and programme delivery

**Independent practice & ventures**
Education, wellness, documentation and consulting

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

**Placement support.** More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

## Business & Entrepreneurship Value

Awareness, prevention and education work in mental health and addiction is needed far beyond clinical settings — in workplaces, schools, NGOs and community programmes — and much of it sits outside regulated clinical practice.

- Design and deliver workplace mental-health awareness and wellbeing initiatives
- Run community education and substance-use prevention programmes
- Support NGO and community behavioural-health projects
- Develop non-clinical recovery-support education, content and referral resources

*Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.*

# Three Flexible Learning Options

| Programme | Duration | Indian Fee | International | Positioning |
|---|---|---|---|---|
| **Certificate Program** | 3 Months | **₹22,999** | **450 USD** | Basic foundation programme — core knowledge first |
| **Post Graduate Diploma Program** | 1 Year | **₹32,999** | **699 USD** | Advanced and career-oriented — full depth at a steady pace |
| **Fast Track PG Diploma Program** MOST CHOSEN | 4 Months | **₹36,999** | **750 USD** | Same advanced syllabus — flexible, finish at your own pace |

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

**Printed books are optional**
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

**₹2,999** additional (India) | **99 USD** additional (International)

**EMI available on credit cards** Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

## What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
**Dr Fatema Ebrahim**

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
**A V**

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
**Akram Sabiq**

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
**Andrea Del Pilar**

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
**Sarah Lilly, MBA**

## Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

## Who Can Enrol

### LISTED ON THE GIHS COURSE PAGE

- Science Graduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- B.Sc. / M.Sc. Graduates
- Life-Science Professionals
- IT Professionals interested in healthcare applications
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology Professionals
- Biomedical / Biotechnology Professionals
- Professionals working with hospitals and healthcare organisations

### ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

# Frequently Asked Questions

### Can AI diagnose a mental-health or substance-use disorder?

No. Diagnosis requires appropriately qualified professionals using accepted assessment processes and relevant clinical information.

### Can AI provide psychotherapy or addiction treatment?

AI may support education or structured self-help content, but it is not a substitute for qualified psychotherapy, addiction treatment or professional clinical care.

### How can AI support mental-health and addiction professionals?

With educational materials, structured documentation, programme-data summaries, prevention content and evidence organisation — under human review.

### Does the course cover co-occurring mental-health conditions?

Yes. The syllabus addresses how substance-use disorders coexist with, and can mimic, medical and psychological disorders.

### Can this course alone make me a mental health therapist?

No automatic professional licensure should be assumed. Therapist roles may require recognised professional education, supervised experience and registration depending on the jurisdiction.

### Can this course support substance abuse counsellor pathways?

It strengthens addiction-related knowledge, but eligibility to practise under a counsellor title depends on local credentialing, supervised experience and employer requirements.

### Can this course help in workplace mental-health programmes?

Yes. The knowledge supports awareness, prevention, communication and referral-oriented workplace wellbeing initiatives within your professional scope.

### Does it cover trauma and crisis?

Yes. The impact of crises, disasters and trauma-causing events on people with addictions is included, along with emergency-management systems in addiction agencies.

### What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

### Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

### Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

### I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

**No batch to wait for — start the day you enrol** Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

# Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

## More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.

### Health Management Programs

- Health Informatics
- Hospital Administration
- Pharma Management
- Hospital Planning & Management
- Medical Transcription
- Nursing Management
- Public Health Administration
- Health Insurance
- Blood Banking Management
- Medico-Legal Systems
- Medical Laboratory Technology
