PROGRAMME OVERVIEW

Build Future-Ready Skills in Mother & Child Health

Practical | Job-Oriented | Maternal Health | Child Development | MCH Programs | Public Health | AI Literacy

The GIHS Mother & Child Health programme is designed for learners interested in the health and welfare of women and children, maternal and child survival, human growth and development, and the design, implementation and evaluation of maternal and child health (MCH) programmes. The curriculum follows the full continuum — from pregnancy and childbirth through postpartum care, infancy, childhood and adolescence.

The programme also develops awareness of maternal and childhood health problems and helps learners understand the gaps in services for mothers and children across community, hospital and public-health settings.

> **"We Teach What the Job Requires."**
>
> GIHS focuses on professional skill development, practical competency and career enhancement. This programme complements your existing academic or healthcare background with structured knowledge relevant to maternal and child health education, programmes and services.

Why This Programme Stands Out

- Mother and child health across the complete life-course continuum
- Pregnancy — antepartum, intrapartum and postpartum learning
- Newborn, infant, toddler, school-age and adolescent development
- Nutrition, immunisation, well-child care and play/activity concepts
- Maternal danger signs and high-risk-condition awareness
- Common childhood disorders and developmental concerns
- MCH programme design, implementation and evaluation
- Global-health perspective on barriers affecting women and children
- NEW dedicated AI module for maternal & child health education and programme support
- Certificate, PG Diploma and Fast-Track learning pathways

The Programme at a Glance

10	3 / 4 / 12	100%	Lifetime	MCQ + Project	2
Modules, including the new AI module	Months — Certificate, Fast Track or PG Diploma	Online & distance, study at your own pace	Free personal expert assigned to you	Online exam plus a 30-page project	International certificates awarded and shipped

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 10 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 10 is the new Artificial Intelligence module.

MODULE 01 Pregnancy — Antepartum

The pregnancy before labour begins: how the fetus develops, how the mother changes, and what must never be missed.

- Stages of fetal development
- Signs and symptoms of pregnancy
- Nursing-care concepts
- Birth setting and alternative methods of delivery
- Physiological and psychological changes of pregnancy
- Needs of pregnant women
- Danger signs and symptoms
- Complications of pregnancy

MODULE 02 Pregnancy — Intrapartum

Labour and delivery — the mechanics, the pain management and the complications.

- Theories of labour
- Components of labour: the 3 P's
- Nursing-care concepts during labour
- Analgesia and anaesthesia of labour and delivery
- Complications of labour and delivery

MODULE 03 Postpartum & Newborn Care

The hours and days after birth, for both mother and baby.

- Placental stage
- Care of the mother
- Care of the newborn
- Breastfeeding and rooming-in
- Complications of the postpartum period

MODULE 04 Puerperium & Infancy

Maternal recovery alongside the first year of the child's development.

- Involution and maternal care
- Physical, motor, cognitive, psychosocial and language development
- Well-baby care
- Nutrition and immunisation
- Play activities
- Common problems and disorders of infancy

MODULE 05 Toddler, Preschooler & School-Age Child

Growth and behaviour through the years where parents most often need guidance.

- Physical, motor, cognitive, psychosocial, language and moral development
- Toilet training
- Nutrition, immunisation and play activities
- Sibling rivalry
- Age-appropriate health and sex education concepts
- Common problems and disorders

MODULE 06 Pre-Adolescent & Adolescent

The transition years, and the health issues specific to them.

- Physical, psychosocial and moral development
- Sex characteristics
- Needs and developmental tasks
- Common problems and disorders of pre-adolescence and adolescence

MODULE 07 Problems & Disorders in Children — Awareness

Educational awareness of the childhood conditions that most often require escalation.

- Prematurity
- Congenital malformations
- Nephrotic syndrome
- Metabolic disturbances
- Infectious diseases

MODULE 08 Problems & Disorders in Mothers — Awareness

The maternal conditions that define high-risk pregnancy and later women's health.

- High-risk maternal conditions
- Pregnancy-related conditions
- Metabolic, cardiac and haematologic conditions in pregnancy
- Menopause
- Selected reproductive-organ and degenerative disorders

MODULE 09 MCH Programmes & Global Health

Moving from the individual mother and child to the system that is meant to serve them.

- Design of maternal and child health programmes
- Implementation and monitoring
- Programme evaluation concepts
- Identifying gaps in services for mothers and children
- Global-health perspective and barriers to access

MODULE 10 · NEW Artificial Intelligence in Maternal & Child Health

AI-Assisted MCH Education · Programme Intelligence · Communication · Clinical Oversight

- Introduction to AI, Generative AI and Large Language Models in maternal and child health
- AI-assisted maternal and child health education planning
- AI support for trimester-wise antenatal and postpartum education materials
- … and 17 further topics — the full module is set out on page 5

MODULE 10 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Maternal & Child Health

AI-Assisted MCH Education · Programme Intelligence · Communication · Clinical Oversight

This module introduces responsible use of Artificial Intelligence, Generative AI and data-driven tools in maternal and child health. It focuses on education, programme planning, communication, information organisation and quality improvement — not on replacing qualified clinicians or making autonomous diagnosis or treatment decisions.

Key Topics Covered

- Introduction to AI, Generative AI and Large Language Models in maternal and child health
- AI-assisted maternal and child health education planning
- AI support for trimester-wise antenatal and postpartum education materials
- AI-assisted newborn, infant and child-development educational content
- AI support for nutrition, immunisation and well-child education materials
- AI-assisted age-appropriate parent and adolescent health education
- AI concepts for MCH data analysis and indicator interpretation
- AI-assisted identification of service gaps and programme priorities using verified data
- AI support for MCH programme planning, monitoring and evaluation frameworks
- AI-assisted community-health communication, FAQs and awareness campaigns
- AI for multilingual, culturally appropriate and health-literacy-sensitive communication
- AI-assisted literature review and evidence organisation for MCH programmes
- AI concepts for population-level risk stratification and early-warning analytics
- AI support for dashboards and trend summaries for MCH programmes
- Prompt engineering for MCH educators, programme officers and healthcare professionals
- Recognising hallucinations, outdated recommendations and unsafe maternal/child advice
- Verification of AI-generated health information against authoritative guidance
- Privacy and confidentiality when handling maternal, newborn and child data
- Bias, fairness, inclusivity and digital-access considerations in MCH AI
- Human-in-the-loop review and escalation to qualified healthcare professionals

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI supports education and programme work. Diagnosis, treatment, prescribing and independent patient care remain with appropriately qualified and licensed healthcare professionals.

What This Module Adds to Your Career

Maternal and child health programmes increasingly run on digital information, data and communication tools. Responsible AI literacy improves educational and programme-support efficiency while teaching learners to verify information, protect privacy and recognise unsafe AI output — which matters acutely where wrong advice reaches mothers and infants.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Develop an MCH awareness campaign for a defined community
- Prepare a maternal-health education calendar
- Review an AI-generated child-health FAQ for unsafe advice
- Summarise verified programme data into a decision brief
- Create a monitoring and evaluation framework

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

Workplace-oriented learning runs through maternal-health education plans, child-development case scenarios, immunisation and nutrition awareness, MCH programme planning, community-health communication, identification of service gaps and structured monitoring and evaluation thinking.

Career-Relevant Skills You Will Develop

- Maternal and child health concepts
- Pregnancy, childbirth and postpartum education
- Newborn and child-development awareness
- Nutrition and immunisation education
- Maternal and child danger-sign awareness and referral thinking
- Community and parent health education
- MCH programme planning and evaluation
- Health communication and awareness-programme development
- AI-assisted educational and programme-support literacy
- Responsible digital-health and data-use awareness

Career & Professional Pathways

The current GIHS course page lists **maternal and child health, women and child development and community health programme roles**. The programme can also support:

- Maternal & Child Health programme support
- Women & Child Development programme roles
- MCH / community health education
- Programme Officer / Associate roles
- Maternal-child nursing upskilling for qualified nurses
- Public health / NGO maternal-child programme support
- Parent and child health education
- MCH project coordination

Roles such as Auxiliary Nurse Midwife (ANM), registered nurse, midwife or other regulated clinical titles require the applicable recognised professional qualification and registration. This GIHS programme does not itself confer statutory registration for those roles. Depending on qualifications and local requirements, learners may also apply the knowledge in parent education programmes, awareness workshops, digital educational content and other non-clinical initiatives.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

GIHS learners go on to contribute across healthcare and the industries that support it — in clinical services and documentation, diagnostics, public health, administration, technology and their own ventures.

Hospitals & clinics
Departmental support, documentation, quality and coordination

Diagnostic & imaging services
Technical support, workflow and reporting quality

Public health systems
Community programmes, health education and project support

Healthcare BPO & documentation
Transcription, scribing, coding and records

Healthcare IT & health-tech
Clinical systems, data services and digital health

Pharmaceutical & device companies
Medical affairs, training and field support

Insurance, TPA & claims
Medical documentation, review and coordination

NGOs & community programmes
Awareness, prevention and programme delivery

Independent practice & ventures
Education, wellness, documentation and consulting

WORKING GLOBALLY: India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Maternal and child health programmes run through government schemes, NGOs, hospitals and private educators, and all of them need people who can plan, communicate and evaluate rather than only deliver clinical care.

- Run parent-education programmes and community awareness workshops
- Provide MCH project design, monitoring and evaluation support to NGOs and programmes
- Develop digital educational content for mothers, families and community workers
- Support women-and-child development initiatives and public-health campaigns

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

Global Institute Of Health Science

Certificate

OF POST GRADUATE DIPLOMA

This is to certify that

CANDIDATE NAME

has successfully completed the one year programme of **Post Graduate Diploma in Mother & Child Health** offered by Global Institute of Health Science, during **MONTH YEAR to MONTH YEAR**. Upon successful completion of the programme

POST GRADUATE DIPLOMA

IN

MOTHER & CHILD HEALTH

is awarded to him/her this day the **XX MONTH YEAR**.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- Science Graduates and Postgraduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- Pharmacy Professionals
- Occupational Therapists
- B.Sc. / M.Sc. Graduates
- Life-Science Professionals
- IT Professionals interested in healthcare applications
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology, Biomedical and Biotechnology Professionals
- Professionals working with hospitals and healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

What is the main objective of the programme?

To develop broad understanding of the health and welfare of women and children, normal growth and development, health systems, MCH programme design and evaluation, and the gaps in services for mothers and children.

Can AI diagnose pregnancy or childhood conditions?

No. Individual symptoms, danger signs and clinical concerns require assessment by appropriately qualified healthcare professionals.

Can AI support MCH programme planning?

Yes. With verified data and human oversight, AI can help organise indicators, identify patterns, prepare summaries and support monitoring and evaluation workflows.

Does the course cover child development?

Yes — infancy, toddler, preschool and school-age, and pre-adolescent and adolescent development.

Does it cover high-risk maternal conditions?

Yes. High-risk maternal and pregnancy-related conditions are included for educational awareness.

Does this course qualify someone as an ANM or registered nurse?

No. ANM, nursing and midwifery roles require their own recognised professional education and registration. This programme complements existing qualifications.

Can the programme support a career in Women & Child Development?

It strengthens relevant MCH knowledge for programme, education and support roles. Actual eligibility depends on the position and employer or government requirements.

Can employers verify the GIHS certificate?

Yes. GIHS provides an official certificate-verification process.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.
