PROGRAMME OVERVIEW

Build Future-Ready Skills in Nutrition & Dietetics

Practical | Job-Oriented | Clinical Nutrition | Diet Planning | Sports Nutrition | Public Health | AI Literacy

The GIHS Nutrition & Dietetics programme builds a strong professional foundation in food science, human nutrition, applied dietetics, clinical nutrition, nutrition management, diet planning, patient counselling, maternal and child nutrition, sports and exercise nutrition, food safety and public-health nutrition.

The programme combines core nutrition science with practical, job-relevant learning so that eligible healthcare and science professionals can strengthen their ability to understand nutritional needs, plan diets and apply nutrition to health management.

> **"We Teach What the Job Requires."**
>
> GIHS focuses on professional skill development, practical competency and career enhancement. The course is designed to complement your existing academic and professional qualifications with specialised nutrition and dietetics knowledge.

Why This Programme Stands Out

- Human nutrition, nutrients, physiology and metabolism
- Food science, dietary guidelines and nutrition for fitness
- Clinical Nutrition & Dietetics with disease-wise learning
- Maternal and child nutrition
- Critical-care nutrition awareness
- Sports, food and exercise science
- Disease understanding, history taking and case taking
- Diet plan management and formation
- Patient counselling and nutrition-management skills
- Food technology, safety and food-law awareness
- International and public-health nutrition
- NEW dedicated AI module for nutrition & dietetics
- Certificate, PG Diploma and Fast-Track learning pathways

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 9 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 9 is the new Artificial Intelligence module.

MODULE 01 Foundations of Nutrition Science

Where nutrition begins — the cell, the food and the nutrients themselves.

- Evolution of the Cell
- Food Science & Nutrition
- Human Nutrition & Nutrients

MODULE 02 Physiology, Metabolism & Dietary Guidelines

How the body actually processes what it is given, and how population guidance is built on that science.

- Nutrition Physiology & Metabolism
- Nutrition for Fitness
- Understanding the bigger picture of dietary guidelines

MODULE 03 Clinical Nutrition & Dietetics

Nutrition applied to disease — condition by condition, including the critical-care setting.

- Clinical Nutrition and Dietetics — disease-wise explanation
- Understanding diseases and case taking
- Nutrition in Critical Care
- Management of disease prognosis concepts

MODULE 04 Life-Stage & Performance Nutrition

Nutrition for the groups whose needs differ most from the general population.

- Nutrition for Maternal & Child Health
- Food, Sport & Exercise Science
- Non-Clinical Nutrition & Dietetics

MODULE 05 Diet Planning & Nutrition Management

The core professional deliverable — building a diet plan that is nutritionally sound, practical and followed.

- Diet Plan Management & Formation
- Menu formation and food substitution
- Calorie and macronutrient distribution
- Nutrition management in practice

MODULE 06 Counselling & Patient Management

The consultation itself — taking a history, building rapport and managing a client over time.

- Patient Counselling
- History & Case Taking
- Patient & Disease Management
- Follow-up and adherence concepts

MODULE 07 Food Safety, Technology & Law

What happens to food before it reaches the plate, and the rules that govern it.

- Food Safety and Food Laws
- Food Technology and Safety
- Food handling and quality concepts

MODULE 08 Public Health Nutrition & the Profession

Nutrition at population scale, plus the working reality of the job you are training for.

- International & Public Health Nutrition
- Role of the Nutritionist & Dietician
- Job description, job skills and the profession

MODULE 09 · NEW Artificial Intelligence in Nutrition & Dietetics

AI-Assisted Nutrition Intelligence · Smarter Diet Planning · Data Interpretation · Professional Oversight

- Introduction to Artificial Intelligence, Machine Learning and Generative AI in nutrition
- AI-assisted nutrition assessment and structured case-information organisation
- AI support for food, nutrient and dietary-data interpretation
- … and 19 further topics — the full module is set out on page 5

The Programme at a Glance

9
Modules, including the new AI module

3 / 4 / 12
Months — Certificate, Fast Track or PG Diploma

100%
Online & distance, study at your own pace

Lifetime

MCQ + Project
Online exam plus a 30-page project

2
International certificates awarded and shipped

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 09 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Nutrition & Dietetics

AI-Assisted Nutrition Intelligence · Smarter Diet Planning · Data Interpretation · Professional Oversight

This module introduces responsible applications of Artificial Intelligence and Generative AI in nutrition education and dietetic workflows. The focus is using AI to support information organisation, nutrition calculations, meal-planning concepts, documentation, education and professional productivity — while maintaining evidence-based practice, privacy and qualified human review.

Key Topics Covered

- Introduction to Artificial Intelligence, Machine Learning and Generative AI in nutrition
- AI-assisted nutrition assessment and structured case-information organisation
- AI support for food, nutrient and dietary-data interpretation
- AI-assisted meal-plan and menu-planning concepts with professional verification
- AI support for calorie, macronutrient and nutrient-distribution calculations
- AI-assisted diet-plan personalisation based on defined goals and verified inputs
- AI concepts for clinical nutrition and disease-specific diet-planning support
- AI-assisted maternal, child, sports and fitness nutrition education
- AI support for food substitution, recipe modification and menu diversity
- AI-assisted food-label and nutrition-information interpretation
- AI for counselling materials, patient education and follow-up communication
- AI-assisted history-taking templates, case summaries and nutrition documentation
- AI support for public-health nutrition data, surveys and trend interpretation
- AI-assisted literature review and evidence organisation in nutrition science
- AI for food-service menu planning, costing and inventory concepts
- Generative AI for educational content, FAQs, quizzes and social-media education
- Prompt engineering for nutritionists and dietetics professionals
- Recognising AI hallucinations, unsafe diet advice and fabricated nutrition claims
- Verification of AI recommendations against reliable evidence and professional guidelines
- Privacy and confidentiality when using client information with AI
- Bias, cultural food preference, affordability and accessibility in AI-generated diets
- Human-in-the-loop review and responsible AI boundaries in nutrition practice

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI output is not automatically nutritionally or medically appropriate. Diet plans for medical conditions, pregnancy, children, renal disease, critical care, eating disorders or other high-risk situations require suitable professional competence and, where applicable, multidisciplinary clinical oversight.

What This Module Adds to Your Career

Nutrition professionals increasingly work with digital tools, food databases, client records and large volumes of health information. Responsible AI literacy helps you organise information, generate educational material and support diet-planning workflows far faster — while teaching you to catch the unsafe, unrealistic or simply invented advice that AI regularly produces in this field.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Review an AI-generated diet plan against the client's actual requirements
- Check calorie and macronutrient calculations for errors
- Identify unsafe or unrealistic dietary advice
- Create culturally appropriate and affordable meal alternatives
- Compare AI-generated nutrition claims with reliable evidence

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

The programme connects nutrition science with practical application — diet-plan formation, case taking, patient counselling, food selection, disease-wise nutrition, sports nutrition, maternal-child nutrition and public-health nutrition.

Career-Relevant Skills You Will Develop

- Human nutrition and nutrient fundamentals
- Nutrition physiology and metabolism
- Clinical and applied nutrition concepts
- Diet planning and menu formation
- Case-taking and counselling awareness
- Maternal and child nutrition
- Sports and fitness nutrition
- Food safety and food-technology awareness
- Public-health nutrition concepts
- AI-assisted nutrition workflow literacy
- Evidence verification and responsible digital-health practice

Career & Professional Pathways

The current GIHS course page lists **nutrition, clinical nutrition support, public health nutrition and wellness roles**. The programme can also support:

- Nutritionist / Nutrition Support roles
- Clinical Nutrition support pathways
- Public Health Nutrition
- Health Coach — Nutrition
- Sports & Fitness Nutrition support
- Wellness and Lifestyle Nutrition
- Food-service / Menu Planning
- Nutrition Education and Community Programmes
- Nutrition Content and Health Education

Clinical dietitian, registered dietitian and other regulated or protected professional titles may require specific accredited education, supervised practice, registration or licensing depending on the country and employer. GIHS professional education complements but does not replace those requirements. Where nutrition or dietetic practice is regulated, meet the applicable scope-of-practice requirements before providing regulated clinical services.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

GIHS learners go on to contribute across healthcare and the industries that support it — in clinical services and documentation, diagnostics, public health, administration, technology and their own ventures.

Hospitals & clinics
Departmental support, documentation, quality and coordination

Diagnostic & imaging services
Technical support, workflow and reporting quality

Public health systems
Community programmes, health education and project support

Healthcare BPO & documentation
Transcription, scribing, coding and records

Healthcare IT & health-tech
Clinical systems, data services and digital health

Pharmaceutical & device companies
Medical affairs, training and field support

Insurance, TPA & claims
Medical documentation, review and coordination

NGOs & community programmes
Awareness, prevention and programme delivery

Independent practice & ventures
Education, wellness, documentation and consulting

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Nutrition is one of the most entrepreneur-friendly areas in health, with demand across wellness, fitness, corporate health, food service and digital education.

- Build a nutrition counselling, wellness or health-coaching practice
- Deliver corporate wellness programmes and workplace nutrition initiatives
- Provide menu planning, costing and food-service nutrition consulting
- Create digital nutrition education — courses, content and community programmes
- Support sports, fitness and lifestyle nutrition services

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- Science Graduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- B.Sc. / M.Sc. Graduates
- Life-Science Professionals
- IT Professionals interested in health applications
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology Professionals
- Biomedical / Biotechnology Professionals
- Professionals working with hospitals and healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

Can AI create a diet plan?

AI can generate meal-plan ideas from the information you give it, but the output may be inaccurate, nutritionally incomplete or unsuitable for a medical condition. Plans must be reviewed by a competent nutrition professional.

Can AI calculate calories and macronutrients?

It can assist, but inputs, food composition data, serving sizes and formulas must be checked. The module teaches verification rather than acceptance.

Does the course cover clinical nutrition?

Yes. Clinical Nutrition and Dietetics with disease-wise explanation is a core module, including nutrition in critical care.

Does it cover sports nutrition?

Yes. Nutrition for Fitness and Food, Sport & Exercise Science are both included.

Does it include diet planning?

Yes. Diet Plan Management & Formation is a dedicated module area.

Does this programme automatically make someone a Registered Dietitian?

No. Registered Dietitian or similarly regulated credentials may require specific accredited education, supervised practice, examinations or registration depending on the jurisdiction.

Can this course support business or entrepreneurship?

Depending on prior qualifications and local rules, learners may apply the knowledge to nutrition education, wellness initiatives, menu planning, health coaching and digital content. Regulated clinical services require appropriate authorisation.

Does it cover public-health nutrition?

Yes. International & Public Health Nutrition is included, along with the professional role of the nutritionist and dietician.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.

Health Management Programs

- Health Informatics
- Hospital Administration
