The GIHS program in Environment Health and Safety Certification covers a wide range of topics to enable participants to confidently manage HSE. It's a **myth that only good and affluent enterprises have a good HSE management.**

Truth of the matter is that good HSE management helps an organization in achieving its goal of excellence.

HSE is an input rather than a by-product for successful ventures; public or private, formal or informal.

It is suitable to both people in workplaces and members of the public who want training in Environment Health and Safety.

It will provide with the skills to manage emergency situations. **Environment Health and Safety** will also cover the **regulatory audits.**

Health, Safety and Environment (HSE) is an umbrella term for the laws, rules, guidance and processes designed to help protect employees, the public and the environment from harm.
