PROGRAMME OVERVIEW

Build Future-Ready Knowledge in Obstetrics & Gynecology

Practical | Job-Oriented | 100 Solved Cases | Maternal Care | Patient Management | Quality | AI Literacy

The GIHS Obstetrics & Gynecology programme is designed as professional upskilling for healthcare and allied professionals seeking structured knowledge in women's health, pregnancy-related care, patient management, healthcare documentation, quality and hospital systems. The purpose is to equip candidates with a modern enhancement of skills so that they perform better in their practice and deliver better care to their patients.

The course includes the outlines, anatomy and physiology of obstetrics and gynecology, patient management, 100 solved cases, informatics, legal aspects, radiology implications, transcription and abbreviations, patient and disease record management, communication, quality, NABH/JCI guidelines and safe medication management.

> **"We Teach What the Job Requires."**
>
> GIHS focuses on practical professional knowledge and career enhancement. This programme complements your existing qualification and develops structured understanding of OBGYN workflows, patient information, maternal-care concepts, case-based learning, documentation, communication and quality systems.

Why This Programme Stands Out

- Obstetrics & gynecology fundamentals and classification
- Anatomy and physiology relevant to women's health
- Patient-management concepts
- 100 solved OBGYN cases for case-based learning
- Pregnancy, antenatal and postnatal knowledge enhancement
- Medical disorders during pregnancy — awareness and learning
- Informatics and patient / disease record management
- Radiology implications in OBGYN
- Medical transcription and abbreviations
- Legal framework and communication
- NABH / JCI quality-awareness concepts and safe medication management
- NEW dedicated AI module for obstetrics & gynecology
- Certificate, PG Diploma and Fast-Track learning pathways

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 8 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 8 is the new Artificial Intelligence module.

MODULE 01 Foundations of Obstetrics & Gynecology

The map of the speciality before the detail — what falls within it and how it is organised.

- Introduction to obstetrics and gynecology
- Classification
- Outlines of obstetrics and gynecology

MODULE 02 Anatomy & Physiology

The structural and functional basis of women's health across the reproductive life course.

- Anatomy of obstetrics and gynecology
- Physiology of obstetrics and gynecology
- Antenatal and postnatal physiological concepts

MODULE 03 Patient Management & Case-Based Learning

The heart of the programme — 100 worked cases plus the history-taking and examination framework that produced them.

- Patient Management
- 100 solved cases of obstetrics and gynecology
- Detailed history and physical examination concepts
- Antenatal and postnatal care of the pregnant patient
- Common gynecological problems
- Common medical disorders during pregnancy

MODULE 04 Clinical Support, Informatics & Documentation

The information trail around every patient — imaging, records and the language used to describe them.

- Informatics
- Radiology implications in OBGYN
- Transcription and abbreviations
- Patient and disease record management

MODULE 05 Legal, Ethical & Communication

Working safely inside the legal and organisational framework of a hospital.

- Legal Law
- Legal framework in hospitals as an organisation
- Communications
- Structural implications

MODULE 06

Hospital & Service Management

How a women's health service is organised, funded and promoted.

- Marketing management / medical tourism
- Management of information
- Financial management

MODULE 07

Quality & Patient Safety

The accreditation and medication-safety standards that govern maternity and gynecology services.

- Management of quality
- NABH & JCI guidelines
- Safe medication management

MODULE 08 · NEW

Artificial Intelligence in Obstetrics & Gynecology

AI-Assisted Women's Health · Maternal-Care Education · Documentation · Clinical Oversight

- Introduction to AI, Machine Learning, predictive analytics and Generative AI in women's health
- AI across preconception, antenatal, intrapartum, postpartum and gynecology workflows
- AI-assisted organisation of patient history and clinical information
- … and 17 further topics — the full module is set out on page 5

Online exam plus a 30-page project

2
International certificates awarded and shipped

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 08 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Obstetrics & Gynecology

AI-Assisted Women's Health · Maternal-Care Education · Documentation · Clinical Oversight

This module introduces responsible applications of Artificial Intelligence, Machine Learning and Generative AI in obstetrics, gynecology and women's-health environments. It focuses on education, information organisation, documentation, workflow, quality and decision-support concepts — not autonomous diagnosis, prescribing, treatment or replacement of qualified obstetricians and gynecologists.

Key Topics Covered

- Introduction to AI, Machine Learning, predictive analytics and Generative AI in women's health
- AI across preconception, antenatal, intrapartum, postpartum and gynecology workflows
- AI-assisted organisation of patient history and clinical information
- AI concepts for maternal-risk stratification and early-warning support
- AI-assisted antenatal education and pregnancy-information materials
- AI concepts for fetal and maternal monitoring data and trend analysis
- AI applications in obstetric and gynecological imaging — introductory concepts
- AI-assisted organisation of laboratory, imaging and investigation information
- AI support for clinical-documentation structure and case summaries — with qualified review
- AI-assisted patient education for common women's-health topics
- AI support for postpartum education, breastfeeding information and follow-up communication
- AI-assisted quality indicators, audit trends and maternal-safety analytics
- AI support for scheduling, patient flow and OBGYN department operations
- AI-assisted literature review and evidence organisation
- Generative AI for case scenarios, educational material, SOPs, checklists and training
- Prompt engineering for OBGYN and women's-health professionals
- Recognising hallucinated diagnoses, medications, test findings and unsafe pregnancy advice
- Bias and fairness across sex, age, pregnancy, fertility and diverse populations
- Privacy and confidentiality for reproductive and maternal-health information
- Human-in-the-loop review, validation and responsible AI governance

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI supports qualified professionals. It does not independently diagnose, prescribe or determine treatment, and pregnancy-related decisions must never rest on an unverified AI output.

What This Module Adds to Your Career

Women's healthcare is increasingly supported by digital records, imaging, monitoring systems, data analytics and AI-enabled tools. Responsible AI literacy helps professionals understand emerging workflows and build stronger documentation, education and quality-improvement skills. Because errors in pregnancy and reproductive-health information can have serious consequences, the module emphasises evidence verification, privacy, bias awareness and qualified human clinical oversight.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Review an AI-generated OBGYN case summary for missing or invented information
- Create a verified antenatal education handout
- Develop a maternal-safety quality checklist
- Analyse a mock departmental workflow dashboard
- Identify unsafe AI-generated pregnancy advice

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

The course already includes 100 solved cases of obstetrics and gynecology, giving a strong base for case-based professional learning. Around them the programme builds structured case review, patient-history organisation, documentation, maternal-care education, communication, quality and safe-medication practice.

Career-Relevant Skills You Will Develop

- OBGYN fundamentals
- Women's-health anatomy and physiology
- Patient-management awareness
- Case-based problem solving
- Antenatal and postnatal knowledge
- Healthcare informatics
- Patient / disease record management
- Radiology implications awareness
- Medical terminology and abbreviations
- Quality and safe-medication awareness
- AI-assisted documentation and education literacy
- Responsible privacy, evidence-verification and AI-governance awareness

Career & Professional Pathways

The current GIHS course page lists **Medical Officer, Medical Consultant, Clinical Associate and Obstetrics Gynecology Nurse**. The programme can also support:

- OBGYN / women's health department support
- Maternal health programme support
- Clinical Associate / coordination roles where prior qualification permits
- Patient education & healthcare documentation support
- Quality / patient-safety support in women's health services
- Professional upskilling for qualified doctors, nurses and allied-health personnel

These titles can require specific recognised medical or nursing qualifications, professional registration, clinical training and employer credentialing. GIHS Obstetrics & Gynecology is best positioned as professional education and upskilling that complements an existing qualification. It does not independently confer the right to diagnose, prescribe, perform procedures, manage pregnancy clinically or practise as an obstetrician or gynecologist.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

GIHS learners go on to contribute across healthcare and the industries that support it — in clinical services and documentation, diagnostics, public health, administration, technology and their own ventures.

Hospitals & clinics
Departmental support, documentation, quality and coordination

Diagnostic & imaging services
Technical support, workflow and reporting quality

Public health systems
Community programmes, health education and project support

Healthcare BPO & documentation
Transcription, scribing, coding and records

Healthcare IT & health-tech
Clinical systems, data services and digital health

Pharmaceutical & device companies
Medical affairs, training and field support

Insurance, TPA & claims
Medical documentation, review and coordination

NGOs & community programmes
Awareness, prevention and programme delivery

Independent practice & ventures
Education, wellness, documentation and consulting

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Women's health services compete on communication, quality and patient experience as much as on clinical skill — and that is where structured knowledge of documentation, quality systems and patient education pays off.

- Deliver women's-health education and awareness programmes
- Provide quality, documentation and patient-safety consulting to maternity services
- Support NABH / JCI accreditation readiness in women's health departments
- Work in medical-tourism coordination and patient-experience roles

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- Science Graduates and Postgraduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- Pharmacy Professionals
- Occupational Therapists
- B.Sc. / M.Sc. Graduates
- Life-Science Professionals
- IT Professionals interested in healthcare applications
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology Professionals
- Biomedical / Biotechnology Professionals
- Professionals working with hospitals & healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

Does the course include practical case learning?

Yes. The syllabus specifically includes 100 solved cases of obstetrics and gynecology.

Can AI diagnose pregnancy complications or gynecological disease?

No. Pregnancy or gynecological symptoms and abnormal findings require assessment by appropriately qualified healthcare professionals.

Can AI create pregnancy or antenatal advice?

AI can assist in drafting educational material, but pregnancy information must be verified against reliable guidance and individualised advice must come from qualified professionals.

Does it cover antenatal and postnatal care concepts?

Yes. The course covers detailed history and physical examination, and antenatal and postnatal care of the pregnant patient.

Does it include NABH and JCI concepts?

Yes, along with safe medication management and management of quality.

Can this course alone make me an Obstetrician or Gynecologist?

No. That is a regulated physician-specialist role requiring recognised medical education, specialist postgraduate training and applicable professional registration.

Can this course help an existing healthcare professional upskill?

Yes. It is designed as additional professional learning and strengthens OBGYN knowledge, case-based understanding, patient-management awareness, quality and digital/AI literacy.

Does the course include radiology?

Yes. Radiology implications in OBGYN are included in the syllabus.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.
