PROGRAMME OVERVIEW

Build Future-Ready Knowledge in Anaesthesia Management

Practical | Job-Oriented | Perioperative Care | OT & ICU | Quality | Patient Safety | AI Literacy

The GIHS Anaesthesia Management programme upgrades professional knowledge in anaesthesia technology, perioperative care, operating-theatre systems, critical-care support and healthcare management. It combines the basic sciences with anaesthesia principles, techniques, patient monitoring, theatre sterilization, oxygen therapy, ICU concepts, complications and quality management.

Anaesthesia management spans the whole department — the operating room, the preoperative and postoperative care unit, the ward and the ICU — along with training, staffing, protocols and monitoring standards through the intraoperative and postoperative period. This programme is built around that full picture.

> **"We Teach What the Job Requires."**
>
> GIHS focuses on professional skill development, practical competency and career enhancement. The programme complements your existing academic and professional qualification with workplace-oriented understanding of perioperative systems, patient safety, quality and healthcare operations.

Why This Programme Stands Out

- Basic sciences for anaesthesia — anatomy, physiology, pharmacology and biochemistry
- Pre-anaesthetic evaluation and preparation concepts
- Pre-, intra- and postoperative care
- General, regional and local anaesthesia concepts
- Specialty anaesthesia — cardiothoracic, neuro, orthopaedic, geriatric and paediatric
- Obstetric and gynaecological anaesthesia concepts
- Blood transfusion, fluid and electrolyte balance
- Operating-theatre sterilization and safety
- Oxygen therapy, respiratory insufficiency and ventilator/ICU concepts
- Complications and perioperative management awareness
- NABL, NABH & JCI quality-management concepts
- NEW dedicated AI module for anaesthesia, perioperative care & OT management
- Certificate, PG Diploma and Fast-Track learning pathways

The Programme at a Glance

11	3 / 4 / 12	100%	Lifetime	MCQ + Project	2
Modules, including the new AI module	Months — Certificate, Fast Track or PG Diploma	Online & distance, study at your own pace	Free personal expert assigned to you	Online exam plus a 30-page project	International certificates awarded and shipped

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 11 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 11 is the new Artificial Intelligence module.

MODULE 01 Foundations & Basic Sciences

Where anaesthesia came from and the science it rests on — the knowledge every other module assumes you already have.

- Introduction to Anaesthesia Management
- History of Anesthesiology
- Medicine applied to Anesthesiology
- Anatomy and Physiology relevant to anaesthesia
- Pharmacology and Biochemistry for anaesthesia

MODULE 02 Anaesthesia Technology & Physics

The equipment side — what the machines do, how they are controlled and what the numbers on the monitor actually represent.

- Physics in Anesthesiology
- Electronics and computers in the operating theatre
- Lasers and theatre technology
- Anaesthesia workstation and monitoring awareness

MODULE 03 Pre-Anaesthetic Evaluation & Preparation

The assessment that happens before anything else — and the one most responsible for a safe case.

- Pre-anaesthetic evaluation
- Patient preparation and optimisation concepts
- History, investigations and risk awareness
- Pre-anaesthetic documentation

MODULE 04 Principles & Practice of Anaesthesiology

The core of the speciality — the techniques themselves and the care that surrounds them from induction through recovery.

- Principles and practice of Anesthesiology
- Pre-operative care
- Peri- and intra-operative care
- Postoperative care and recovery
- Different methods of anaesthetic technique

MODULE 05 Regional, Local & Pain Management

Anaesthesia without general anaesthesia — the blocks, their indications and the management of pain that outlasts the procedure.

- Regional anaesthesia — spinal, epidural and caudal
- Local anaesthesia concepts
- Nerve blocks
- Management of chronic pain

MODULE 06 Specialty & Age-Group Anaesthesia

How the approach changes with the surgery and with the patient in front of you.

- Anaesthesia for general surgery
- Cardiothoracic, neurosurgical and orthopaedic anaesthesia
- Geriatric and plastic-surgery anaesthesia
- Surgical endocrinology
- Paediatric Anesthesiology
- Obstetric and gynaecological procedures

MODULE 07 Transfusion, Fluids & Theatre Safety

Keeping the patient and the theatre safe — what goes into the patient, and what can go wrong in the room.

- Blood transfusion
- Fluid and electrolyte balance
- Fire and explosion hazards
- Theatre sterilization procedures

MODULE 08 Oxygen Therapy, Ventilation & Critical Care

The respiratory and intensive-care side of the speciality, where anaesthesia knowledge extends well beyond the operating theatre.

- Oxygen therapy
- Management of acute respiratory insufficiency
- Management of chronic respiratory insufficiency
- Ventilator commitments in the ICU
- Critical Care Anesthesiology
- Anaesthesia in abnormal environments, including high-altitude

MODULE 09 Complications, Quality & Accreditation

What can go wrong, how it is managed, and the quality systems designed to stop it happening again.

- Complications in Anesthesiology
- Peri- and postoperative management of complications
- Quality Assurance Management
- NABL, NABH & JCI awareness

MODULE 10 Hospital & Department Management

Running the service — the legal, financial and information systems an anaesthesia department depends on.

- Marketing management / medical tourism
- Legal framework in hospitals as an organisation
- Management of information
- Financial management
- Management of quality

MODULE 11 · NEW Artificial Intelligence in Anaesthesia & Perioperative Care

AI-Assisted Perioperative Intelligence · Smarter Monitoring · OT Workflow · Patient Safety

- Introduction to AI, Machine Learning, predictive analytics and Generative AI in anaesthesia
- AI across the perioperative journey — preoperative, intraoperative and postoperative
- AI-assisted preoperative information review and risk-stratification concepts
- … and 19 further topics — the full module is set out on page 5

MODULE 11 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Anaesthesia & Perioperative Care

AI-Assisted Perioperative Intelligence · Smarter Monitoring · OT Workflow · Patient Safety

This module introduces responsible applications of Artificial Intelligence, Machine Learning and Generative AI in anaesthesia and perioperative environments. It focuses on AI literacy, clinical-workflow support, monitoring concepts, quality improvement and professional productivity — not autonomous anaesthesia delivery or the replacement of qualified anaesthesia professionals.

Key Topics Covered

- Introduction to AI, Machine Learning, predictive analytics and Generative AI in anaesthesia
- AI across the perioperative journey — preoperative, intraoperative and postoperative
- AI-assisted preoperative information review and risk-stratification concepts
- AI support for organising patient history, investigations and pre-anaesthetic documentation
- AI concepts for perioperative risk prediction and early-warning systems
- AI-assisted interpretation of trends in physiological monitoring data
- AI concepts for haemodynamic, respiratory and depth-of-anaesthesia decision support
- AI-assisted detection of deterioration patterns and postoperative-risk signals
- AI concepts in airway assessment and difficult-airway prediction
- AI-assisted OT scheduling, case sequencing and operating-room utilisation
- AI for staffing, equipment and resource planning in anaesthesia departments
- AI-assisted ICU and ventilator data-trend analysis
- AI support for medication-safety checks and structured drug-information review
- AI-assisted quality indicators, incident trends and perioperative safety analytics
- AI support for infection-control, sterilization and OT quality checklists
- AI-assisted audit, NABH / JCI readiness and quality-document review
- AI for equipment maintenance forecasting and anaesthesia-workstation utilisation
- Generative AI for SOPs, checklists, training material and handover templates
- Prompt engineering for anaesthesia, OT and perioperative professionals
- Recognising hallucinations, unsafe recommendations and fabricated medical information
- Patient privacy, confidentiality, cybersecurity and secure AI use
- Bias, explainability, validation and the limitations of clinical AI

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

Anaesthesia is a high-risk clinical activity. AI is taught here as decision-support and workflow technology — it never administers anaesthesia, and its output is never a substitute for clinical assessment, approved monitoring standards, institutional protocols or qualified anaesthesiology judgement.

What This Module Adds to Your Career

Operating theatres and critical-care units generate large volumes of monitoring, documentation, scheduling and quality data. Responsible AI literacy helps professionals understand the technologies now used for workflow optimisation, risk analytics, monitoring support and structured documentation — while keeping patient safety, validation and human oversight at the centre of every decision.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Review an AI-generated preoperative checklist and identify unsafe recommendations
- Prepare an OT utilisation dashboard concept
- Analyse a mock perioperative incident trend
- Create a quality audit checklist for the theatre
- Verify AI-generated clinical information against authoritative sources

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

The programme connects theory with workplace-oriented areas: preoperative preparation, OT safety, anaesthesia equipment and monitoring awareness, patient positioning and perioperative workflow, oxygen and ventilator support, sterilization, complication awareness, documentation and quality systems.

Career-Relevant Skills You Will Develop

- Anaesthesia-management fundamentals
- Perioperative workflow awareness
- Pre-anaesthetic evaluation concepts
- General, regional and local anaesthesia knowledge
- OT sterilization and patient-safety awareness
- Oxygen, respiratory and ICU support concepts
- Blood transfusion and fluid/electrolyte awareness
- Quality and accreditation awareness
- Hospital information, legal and financial-management concepts
- AI literacy for anaesthesia and perioperative environments
- Responsible technology, privacy and clinical-governance awareness

Career & Professional Pathways

The current GIHS course page lists **anaesthesia, operating-theatre and perioperative support roles**. The programme can also support:

- Anaesthesia / OT department support
- Perioperative services support
- Operating theatre coordination
- Healthcare quality & patient-safety support
- Hospital / OT operations support
- Professional upskilling for qualified anaesthesia technicians, nurses and healthcare personnel

Titles such as Anesthesiologist, Anaesthesia Technician / Technologist, Nurse Anaesthetist or Anesthesiologist Assistant may require specific recognised education, supervised clinical training, professional registration or licensing. GIHS professional education complements but does not replace those requirements, and eligibility depends on your prior qualification, experience and employer criteria.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

GIHS learners go on to contribute across healthcare and the industries that support it — in clinical services and documentation, diagnostics, public health, administration, technology and their own ventures.

Hospitals & clinics
Departmental support, documentation, quality and coordination

Diagnostic & imaging services
Technical support, workflow and reporting quality

Public health systems
Community programmes, health education and project support

Healthcare BPO & documentation
Transcription, scribing, coding and records

Healthcare IT & health-tech
Clinical systems, data services and digital health

Pharmaceutical & device companies
Medical affairs, training and field support

Insurance, TPA & claims
Medical documentation, review and coordination

NGOs & community programmes
Awareness, prevention and programme delivery

Independent practice & ventures
Education, wellness, documentation and consulting

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Operating-theatre and perioperative services are among the most cost-sensitive and most heavily audited parts of any hospital, so operational, quality and safety expertise is valuable to any facility building or running one.

- Provide OT operations, scheduling and utilisation consulting to hospitals
- Support NABH / JCI accreditation readiness for perioperative services
- Develop SOPs, sterilization protocols and theatre safety checklists
- Deliver training and awareness programmes for OT and anaesthesia support staff
- Advise on equipment, consumables and maintenance planning for theatres

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

Global Institute Of Health Science

Certificate

OF POST GRADUATE DIPLOMA

This is to certify that

CANDIDATE NAME

has successfully completed the one year programme of **Post Graduate Diploma in Anaesthesia Management** offered by Global Institute of Health Science, during **MONTH YEAR to MONTH YEAR**. Upon successful completion of the programme

POST GRADUATE DIPLOMA

IN

ANAESTHESIA MANAGEMENT

is awarded to him/her this day the **XX MONTH YEAR**.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- Science Graduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- B.Pharm / M.Pharm / Pharmacy Professionals
- Occupational Therapists
- B.Sc. / M.Sc. Graduates
- Life-Science Professionals
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology Professionals
- Biomedical / Biotechnology Professionals
- Professionals working with hospitals & healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

Can AI administer anaesthesia independently?

No. Anaesthesia is a high-risk clinical activity requiring qualified professionals, continuous monitoring and accountable clinical judgement. The module teaches AI as a decision-support and workflow technology, never an autonomous replacement.

How can AI support anaesthesia and perioperative care?

With information organisation, risk-prediction concepts, monitoring trend analysis, workflow planning, quality analytics and documentation. Clinical decisions and anaesthesia delivery remain the responsibility of appropriately qualified professionals.

Does the course cover pre-anaesthetic evaluation?

Yes. Pre-anaesthetic evaluation and preparation form a dedicated module.

Does it cover regional and local anaesthesia?

Yes — spinal, epidural and caudal techniques, local anaesthesia, nerve blocks and chronic-pain management concepts.

Does it cover critical care and ventilators?

Yes. Oxygen therapy, respiratory insufficiency, ventilator commitments in ICU and critical care anesthesiology are all included.

Does it cover paediatric and obstetric anaesthesia?

Yes. Paediatric anesthesiology and obstetric/gynaecological procedures are included.

Can this course alone make me an Anesthesiologist?

No. Anesthesiologist is a regulated physician-specialist role requiring recognised medical education, specialist postgraduate training and applicable professional registration.

Can the course help existing nurses or technicians upskill?

Yes. For appropriately qualified personnel it strengthens theoretical knowledge of anaesthesia management, perioperative workflow, patient safety, quality and operations.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.

Health Management Programs

- Health Informatics
- Hospital Administration
- Pharma Management
- Hospital Planning & Management
- Medical Transcription
- Nursing Management
- Public Health Administration
- Health Insurance
- Blood Banking Management
- Medico-Legal Systems
- Medical Laboratory Technology
- Medical Radiology Technology
- Quality Management for Hospitals
- Disaster Management for Hospitals
- Hospital Infection Control & Patient Safety
- Healthcare & Hospital Administration
- Medical Record Management
- Medical Scribe

Clinical Research Programs

- Clinical Research & Quality Assurance
- Pharmacovigilance & Medical Writing
- Clinical Research & Pharmacovigilance
- Clinical Data Management & SAS
- Regulatory Affairs, IPR & Patent
- Clinical Trials Management
- CRA & Site Management
- Study Start-Up & Site Activation
- Trial Supply & IP Management
- Biostatistics & Statistical Programming

Allied Medical Programs

- Mother & Child Health
- Mental Health & Addictions
- Nutrition & Dietetics
- Pregnancy Education
- Gynaecology & Obstetrics
- Electroencephalogram (EEG)
- Nuclear Medicine Technology
- Anaesthesia Management
- First Aid (CPR / Emergency Care)
- Electrocardiogram (ECG)

Environment, Health & Safety Programs

- Industrial Health & Hygiene
- Environment Health Safety & RM
- Occupational Health & Safety
- Industrial Safety
- Food Safety & Quality Management
- Oil & Gas Safety Engineering
- Process Safety & Engineering
- Fire & Industrial Safety Management
- Environment Social Governance (ESG)

Ayurveda & Homeopathic Programs

- Panchkarma: Ayurveda
- Garbhsanskar: Ayurveda
- Naturopathy & Yoga
- Siddha: Medicine
- Ksharsutra: Ayurveda
- Classical Homeopathy
- Materia Medica: Homeopathy
- Repertory: Homeopathy
- Organon: Homeopathy
- Ayurvedic Nutrition & Dietetics
