PROGRAMME OVERVIEW

Build Future-Ready Knowledge in EEG, EMG & Nerve Conduction Studies

Practical | Job-Oriented | EEG | EMG | NCV | Neurodiagnostics | Patient Management | AI Literacy

The GIHS Electroencephalogram (EEG, EMG & NCV) programme provides professional learning in neurodiagnostic concepts, medical language, healthcare documentation, pharmacology, patient communication and the fundamentals of EEG, electromyography and nerve conduction studies.

An EEG technologist assists in the diagnosis and treatment of patients with neurological disorders. Electromyography measures how well muscles respond to electrical signals from the brain, and nerve conduction studies assess the electrical impulses that travel through the nervous system. This programme brings all three together in one structured syllabus, designed around the eligibility of medical and life-science professionals in India and globally.

> **"We Teach What the Job Requires."**
>
> GIHS focuses on practical professional knowledge that complements your existing medical, nursing, laboratory, allied-health or healthcare background. The course strengthens your understanding of neurodiagnostic workflows, patient preparation, documentation and technology while maintaining appropriate clinical and professional boundaries.

Why This Programme Stands Out

- Integrated EEG, EMG and NCV learning in a single programme
- Anatomy, pathophysiology and disease-process foundations
- EEG-associated diseases and neurodiagnostic applications
- Different types of EEG devices and technology awareness
- Nerve Conduction Study (NCS) and Electromyogram (EMG) fundamentals
- Functions, processes and report-interpretation concepts
- Medical terminology, word building and healthcare documentation
- Patient counselling and patient-management concepts
- Pharmacology plus ADR & DDI awareness
- NEW dedicated AI module for EEG, EMG, NCV & neurodiagnostics
- Certificate, PG Diploma and Fast-Track learning pathways

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 7 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 7 is the new Artificial Intelligence module.

MODULE 01 Foundation Sciences

The clinical grounding you need before you touch a recording — how the nervous system works, what goes wrong in it, and how medication affects what you will see.

- Anatomy, Pathophysiology & Disease Processes
- Pharmacology relevant to neurodiagnostics
- ADR (Adverse Drug Reactions) & DDI (Drug–Drug Interactions)

MODULE 02 Medical Language & Healthcare Documentation

The vocabulary and written standards of the neurodiagnostic department, so your notes and reports read the way a clinical record should.

- Mastering Medical Language
- Medical Word Building
- Grammar and Punctuation
- Healthcare Documentation
- Medical Transcription
- Diagnostic Reports
- Keyboard Kinetics

MODULE 03 Electroencephalography (EEG) Core

What an EEG actually measures, the conditions it is used for, and the equipment that produces the trace.

- EEG & associated diseases
- Different types of EEG devices
- Functions & process of EEG recording
- Electrode and signal-quality awareness

MODULE 04 Electromyography (EMG) & Nerve Conduction Studies

The muscle and nerve side of neurodiagnostics — what each study tests, how it is performed and what a neuromuscular problem looks like in the data.

- Electromyogram (EMG) fundamentals
- Nerve Conduction Study (NCS) fundamentals
- Neuromuscular disorders and presentation
- Artifact versus true signal

MODULE 05 Report Interpretation & Patient Management

Reading a neurodiagnostic report with understanding, and handling the patient in front of you from preparation through to follow-up.

- Report Interpretations
- Patient Management
- Patient Counseling
- Patient preparation and comfort

MODULE 06 Professional Practice

The conduct, communication and continuing-education habits that separate a technologist from an operator.

- Communication Skills
- Technology and the Medical Profession
- Continuing Professional Development

MODULE 07 · NEW Artificial Intelligence in EEG, EMG, NCV & Neurodiagnostics

AI-Assisted Signal Analytics · Workflow Support · Responsible Human Verification

- Introduction to AI, Machine Learning, Deep Learning and Generative AI in neurodiagnostics
- Digital EEG signals, data patterns and AI-assisted signal analysis
- AI concepts for EEG waveform classification and pattern-recognition support
- … and 17 further topics — the full module is set out on page 5

The Programme at a Glance

7
Modules, including the new AI module

3 / 4 / 12
Months — Certificate, Fast Track or PG Diploma

100%
Online & distance, study at your own pace

Lifetime
Free personal expert assigned to you

MCQ + Project
Online exam plus a 30-page project

2
International certificates awarded and shipped

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 07 · NEW HIGHLIGHT MODULE

Artificial Intelligence in EEG, EMG, NCV & Neurodiagnostics

AI-Assisted Signal Analytics · Workflow Support · Responsible Human Verification

This module introduces the emerging role of Artificial Intelligence, Machine Learning and Generative AI in neurodiagnostic environments. The focus is AI literacy, signal-analysis concepts, workflow support, quality improvement and documentation — not autonomous diagnosis or the replacement of neurologists, neurophysiologists or qualified neurodiagnostic staff.

Key Topics Covered

- Introduction to AI, Machine Learning, Deep Learning and Generative AI in neurodiagnostics
- Digital EEG signals, data patterns and AI-assisted signal analysis
- AI concepts for EEG waveform classification and pattern-recognition support
- AI-assisted artifact detection and signal-quality improvement
- AI concepts for seizure / event detection and long-term EEG monitoring support
- AI-assisted sleep-EEG and neurological-pattern analysis concepts
- AI concepts for quantitative EEG and trend visualisation
- AI-assisted EMG signal analysis and pattern recognition
- AI support for NCS data organisation and trend comparison
- AI-assisted quality-control checks for neurodiagnostic recordings
- AI for electrode / signal-quality monitoring and technical troubleshooting
- AI-assisted structuring of neurodiagnostic reports — with qualified review
- AI support for scheduling, workflow prioritisation and department productivity
- AI-assisted literature review and evidence organisation in EEG / EMG / NCV
- Generative AI for SOPs, checklists, training material and patient instructions
- Prompt engineering for neurodiagnostic professionals
- Recognising hallucinated findings, false positives and unsupported interpretations
- Bias, explainability, validation and the limits of neurodiagnostic AI
- Patient privacy and secure handling of EEG / EMG / NCV data
- Human-in-the-loop review and responsible AI governance

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI may assist signal review and workflow, but final clinical interpretation and diagnosis require appropriately qualified professionals.

What This Module Adds to Your Career

Neurodiagnostic services increasingly rely on digital signals, long-duration recordings, sophisticated software and large datasets. Responsible AI literacy helps you understand the technologies now being used for signal processing, pattern recognition, artifact detection, workflow optimisation and documentation. The module emphasises verification, because AI can misclassify artifacts, miss clinically important patterns or generate unsupported conclusions.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Review mock EEG patterns carrying AI-generated annotations
- Separate artifact from genuine signal in a flagged recording
- Evaluate an AI-generated report summary for unsupported claims
- Build a neurodiagnostic recording-quality checklist
- Prepare patient instructions from verified information

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

The programme connects neurodiagnostic theory with workplace-oriented practice: patient preparation, device awareness, signal-quality thinking, healthcare documentation, medical terminology, report structure, communication and patient management.

Career-Relevant Skills You Will Develop

- EEG, EMG and NCV fundamentals
- Neurodiagnostic workflow awareness
- Anatomy and pathophysiology foundations
- EEG device and technology awareness
- Signal-quality and artifact awareness
- Medical language and documentation
- Diagnostic-report structure awareness
- Patient communication and counselling
- Pharmacology, ADR and DDI awareness
- AI-assisted neurodiagnostic workflow literacy
- Responsible data, privacy and verification practice

Career & Professional Pathways

The current GIHS course page lists **EEG/EMG/NCV Technician, Ambulance Assistant, ALS/BLS Specialist and Emergency Assistant**. The programme can also support:

- EEG / Neurodiagnostic department support
- EEG, EMG & NCV workflow support for appropriately qualified personnel
- Neurodiagnostic documentation and quality support
- Healthcare technology and diagnostic services support
- Professional upskilling for nurses, laboratory and allied-health staff

Eligibility for specific roles depends on prior qualifications, practical competencies, employer requirements and applicable local professional or regulatory requirements. Electrode placement, equipment operation, patient preparation and recording quality are practical competencies — where a role requires them, supervised hands-on training should complement online theoretical learning.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

GIHS learners go on to contribute across healthcare and the industries that support it — in clinical services and documentation, diagnostics, public health, administration, technology and their own ventures.

Hospitals & clinics
Departmental support, documentation, quality and coordination

Diagnostic & imaging services
Technical support, workflow and reporting quality

Public health systems
Community programmes, health education and project support

Healthcare BPO & documentation
Transcription, scribing, coding and records

Healthcare IT & health-tech
Clinical systems, data services and digital health

Pharmaceutical & device companies
Medical affairs, training and field support

Insurance, TPA & claims
Medical documentation, review and coordination

NGOs & community programmes
Awareness, prevention and programme delivery

Independent practice & ventures
Education, wellness, documentation and consulting

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Neurodiagnostic testing is expanding beyond large hospitals into private clinics, diagnostic chains and mobile services. The operational, documentation and technology knowledge in this programme is exactly what those small services are usually missing.

- Set up or manage a neurodiagnostic / EEG service unit with appropriately qualified staff
- Offer documentation, reporting-quality and workflow consulting to diagnostic centres
- Run training and awareness programmes for neurodiagnostic support staff
- Advise on EEG device selection, signal-quality protocols and departmental SOPs

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

Global Institute Of Health Science

Certificate

OF POST GRADUATE DIPLOMA

This is to certify that

CANDIDATE NAME

has successfully completed the one year programme of **Post Graduate Diploma in Electroencephalogram (EEG, EMG & NCV)** offered by Global Institute of Health Science, during **MONTH YEAR to MONTH YEAR**. Upon successful completion of the programme

POST GRADUATE DIPLOMA

IN

ELECTROENCEPHALOGRAM (EEG, EMG & NCV)

is awarded to him/her this day the **XX MONTH YEAR**.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- MBBS
- BDS
- BHMS
- BAMS
- BPT
- BUMS
- Occupational Therapists
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology Professionals
- Professionals working with hospitals & healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

How can AI be used in EEG?

AI can assist with signal processing, artifact detection, pattern classification, event-detection concepts, quantitative trends and workflow prioritisation. Final clinical interpretation requires qualified professionals.

Can AI detect seizures from EEG?

AI-based systems can support seizure or event detection in certain validated workflows, but false positives and false negatives occur. AI output requires professional review and is never an independent diagnosis.

Does AI replace an EEG technologist or neurologist?

No. Patient preparation, recording quality, troubleshooting, clinical context and final interpretation all require trained human professionals.

Does the course cover EMG and nerve conduction studies?

Yes. Electromyogram (EMG) and Nerve Conduction Study (NCS) are both dedicated syllabus topics.

Does practical hands-on competency matter in EEG/EMG/NCV?

Yes. Electrode placement, equipment operation, patient preparation, artifact management and recording quality are practical competencies that supervised training should complement.

Can this online course alone qualify me as an EEG Technician?

Eligibility for EEG or neurodiagnostic technician roles depends on employer criteria, practical competency, recognised education and applicable local requirements. The GIHS programme supports professional education and upskilling.

Can employers verify the GIHS certificate?

Yes. GIHS provides an official certificate-verification process through which certificate authenticity can be checked.

Can working professionals enroll?

Yes. The course is offered through online and distance learning, with a Fast-Track option.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.
