PROGRAMME OVERVIEW

Build Future-Ready Skills in Environment, Health & Safety

Practical | Job-Oriented | HIRA | Occupational Health | Environment | ISO 14001 / 45001 | Emergency Management | AI Literacy

EHS is the discipline that decides whether an operation harms the people who run it, the people who live near it, or the environment that carries its waste. Done properly it is not a brake on production — it is one of the inputs that makes production repeatable.

The GIHS Environment, Health & Safety programme builds practical professional knowledge across the whole field: environmental assessment, sampling and monitoring; safety across chemical, petrochemical, petroleum, pharma, engineering and construction industries; waste and effluent management; dust hazards; clinical toxicology; environmental impact assessment; ISO 14001 and ISO 45001; workplace wellness and occupational health; human factors and advanced ergonomics; HIRA, HAZOCHEM, incident investigation and legal requirements.

> **"Protect People · Protect the Environment · Strengthen Performance."**
>
> GIHS presents HSE as an input to successful operations rather than a by-product — connecting core EHS principles with workplace risk management, environmental protection, occupational health, emergency response, regulatory audits and responsible AI analytics.

Why This Programme Stands Out

- Integrated Environment, Health & Safety learning in one programme
- Environment assessment, sampling and monitoring
- Chemical, petrochemical, petroleum, pharma, engineering and construction safety
- Solid waste, wastewater and sludge management
- Dust-hazard assessment and control, and clinical toxicology
- Environmental Impact Assessment (EIA)
- ISO 14001, ISO 45001, OHSAS and national standards
- Workplace wellness, occupational health and advanced ergonomics
- HIRA, HAZOCHEM and accident / incident investigation
- EHS legal requirements and regulatory-audit orientation
- NEW dedicated AI module for Environment, Health & Safety

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 8 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 8 is the new Artificial Intelligence module.

MODULE 01 EHS Foundations & Integration

What EHS covers, how the three strands connect, and where the human element sits.

- Environment, health and safety — scope and principles
- HSE management
- Integration of HSE
- Human factors

MODULE 02 Environmental Assessment & Monitoring

Measuring what an operation actually releases, and predicting what a new one will.

- Environment assessment, sampling and monitoring
- Environmental Impact Assessment
- Clinical toxicology

MODULE 03 Waste, Effluent & Discharge Management

Everything the process does not turn into product.

- Solid waste management
- Waste water and sludge treatment and disposal management
- All kinds of waste management

MODULE 04 Industry-Specific Safety

The hazard profile changes with the industry — and so does the control strategy.

- Safety management in chemical, petrochemical and petroleum industry
- Safety in textiles, pharma, engineering, construction and other industries
- Safety in the unorganised sector
- Safety in excavation

MODULE 05 Workplace Exposure & Occupational Health

The slow harms — the ones that show up years after the exposure.

- Assessment and control of dust hazards at a workplace
- Occupational health and management
- Occupational diseases and diagnosis
- Workplace wellness
- Advanced ergonomics

MODULE 06 Risk Assessment & Incident Investigation

Finding the hazard before it finds you — and learning properly when it doesn't.

- HIRA — hazard identification and risk assessment
- HAZOCHEM
- Accident and incident investigation

MODULE 07 Standards, Legal Requirements & Audit

The management systems and the law that make all of the above enforceable.

- ISO 14001 and ISO 45001
- OHSAS standards
- National standards
- Legal requirements in environment, health and safety

MODULE 08 · NEW Artificial Intelligence in Environment, Health & Safety

AI-Assisted HIRA · Predictive Safety · Environmental Intelligence · Responsible AI

- Introduction to AI, Machine Learning, predictive analytics and Generative AI in EHS
- AI-assisted hazard identification and HIRA / JSA / JHA preparation
- AI-assisted risk-register development and risk prioritisation
- … and 21 further topics — the full module is set out on page 5

The Programme at a Glance

8
Modules, including the new AI module

3 / 4 / 12
Months — Certificate, Fast Track or PG Diploma

100%
Online & distance, study at your own pace

Lifetime
Free personal expert assigned to you

MCQ + Project
Online exam plus a 30-page project

2
International certificates awarded and shipped

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 08 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Environment, Health & Safety

AI-Assisted HIRA · Predictive Safety · Environmental Intelligence · Responsible AI

This future-ready module introduces practical applications of Artificial Intelligence, Machine Learning, predictive analytics, computer vision and Generative AI across EHS workflows — as decision support and productivity, never as a replacement for field verification, engineering controls, medical judgement or accountable professionals.

Key Topics Covered

- Introduction to AI, Machine Learning, predictive analytics and Generative AI in EHS
- AI-assisted hazard identification and HIRA / JSA / JHA preparation
- AI-assisted risk-register development and risk prioritisation
- AI for safety-observation, near-miss and incident trend analytics
- Predictive analytics for recurring and high-potential risk patterns
- Computer vision for PPE, unsafe acts and unsafe-condition monitoring
- AI-assisted chemical and SDS information extraction and hazard summarisation
- AI for occupational exposure, noise, dust, heat and environmental-monitoring trends
- AI-assisted occupational-health and ergonomics risk analytics
- AI for environmental data — air, water, wastewater, waste, emissions and resource use
- AI-assisted waste classification and waste-reduction opportunity analytics
- AI support for Environmental Impact Assessment data organisation and review
- AI-assisted ISO 14001 and ISO 45001 audit preparation
- AI support for compliance registers and regulatory-action tracking
- AI-assisted contractor and construction EHS performance analytics
- AI support for excavation and high-risk-work safety reviews
- AI-assisted incident investigation and root-cause information organisation
- AI support for CAPA prioritisation and action tracking
- AI-assisted emergency scenario development and drill planning
- AI for EHS leading and lagging indicator dashboards
- Generative AI for SOPs, toolbox talks, training and safety alerts
- Recognising hallucinated standards, legal requirements and exposure limits
- Data privacy, confidentiality and cybersecurity for EHS information
- Responsible AI governance, evidence traceability and human-in-the-loop verification

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI is a decision-support and productivity tool. It does not replace field verification, engineering controls, competent risk assessment, medical judgement, legal compliance or the accountable professional. AI generates plausible but wrong standards, exposure limits and safeguards — in this field that is how people get hurt, so every technical output is checked against source data, current standards and competent review.

What This Module Adds to Your Career

EHS has always been a data problem dressed up as a paperwork problem — observations, near-misses, exposure readings, emissions data, audit findings, actions. AI is genuinely good at finding the pattern in that, which is the difference between reacting to incidents and preventing them. What the module trains beyond the tooling is the professional habit that keeps it safe: an exposure limit, a legal requirement or a control measure that AI produced is treated as a claim to be verified, never as an answer.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Prepare a HIRA / JSA for a simulated activity and verify every control
- Analyse a mock observation and near-miss dataset for recurring risk themes
- Build an EHS leading-indicator dashboard concept
- Create an ISO 14001 / 45001 audit checklist and test it against the standard
- Review an AI-generated legal and compliance summary and identify unsupported claims

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

Learning is positioned around real workplace requirements. Practical exercises run through risk assessments, audit checklists, incident scenarios, compliance reviews, KPI dashboards, case studies, SOPs, training content, action tracking and management reporting — and the AI-enhanced versions of the same tasks: reviewing an AI-generated risk assessment for errors, building a trend-analysis dashboard, improving a toolbox talk, and checking whether an AI recommendation is actually supported by verified technical information.

Career-Relevant Skills You Will Develop

- Integrated EHS management
- Hazard identification and HIRA
- Environmental assessment and monitoring
- Occupational-health and workplace-wellness awareness
- Wastewater, sludge and waste-management awareness
- Dust and exposure-risk awareness
- EIA and environmental-management fundamentals
- ISO 14001 / ISO 45001 awareness
- Incident investigation and emergency-management thinking
- Human factors and advanced ergonomics
- AI-assisted EHS and environmental analytics

Career & Professional Pathways

The current GIHS course page lists **EHS Officer, EHS Engineer, EHS Manager and regional-director pathways**. The programme can also support:

- EHS / HSE Officer
- EHS / HSE Engineer
- EHS / HSE Manager and leadership pathways
- Environmental and safety compliance support
- Occupational health and safety coordination
- EHS audit and management-system support
- Construction and contractor EHS support
- Environmental monitoring and waste-management support
- Digital EHS and safety analytics support

The GIHS page lists Regional Director, EHS Officer, EHS Manager and EHS Engineer. Statutory appointments, engineering responsibilities and regulated roles depend on recognised prior qualifications, experience, competency, employer requirements and applicable law.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

Every industry that employs people needs EHS — GIHS learners work in pharmaceuticals, chemicals, oil and gas, engineering, automotive, construction, IT, food, hospitality and healthcare alike.

Pharmaceutical & chemical plants
Process safety, hygiene and compliance

Oil, gas & petrochemicals
HSE, permit systems and major-hazard control

Automotive & heavy engineering
Plant safety, ergonomics, audits and training

Manufacturing & FMCG
Risk assessment, incident prevention and management systems

Construction & infrastructure
Contractor safety, site compliance and project HSE

IT, services & facilities
Workplace safety, fire preparedness and ESG reporting

Food processing & hospitality
Food safety, HACCP and quality management

Hospitals & healthcare
Biomedical waste, occupational health and fire safety

Consulting, audit & certification
Assessments, ESG, training and audits

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Almost every industrial and healthcare employer needs EHS capacity, and most mid-sized ones buy it rather than build it — audits, documentation, training and compliance support are routinely outsourced to small specialist consultancies.

- Provide EHS audit, gap-assessment and compliance-support services
- Develop SOPs, HIRA registers, legal registers and management-system documentation
- Deliver workplace EHS training and toolbox-talk programmes
- Support ISO 14001 and ISO 45001 certification readiness
- Offer environmental monitoring coordination and waste-management advisory

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

Global Institute Of Health Science

Certificate

OF POST GRADUATE DIPLOMA

This is to certify that

CANDIDATE NAME

has successfully completed the one year programme of **Post Graduate Diploma in Environment, Health & Safety** offered by Global Institute of Health Science, during **MONTH YEAR to MONTH YEAR**. Upon successful completion of the programme

POST GRADUATE DIPLOMA

IN

ENVIRONMENT, HEALTH & SAFETY

is awarded to him/her this day the **XX MONTH YEAR**.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- All graduates
- Engineers of every discipline
- MBBS & BHMS professionals
- EHS / HSE / Safety professionals
- Chemical, process, mechanical and instrumentation professionals
- Pharmaceutical and chemical-industry professionals
- Oil & gas and petrochemical professionals
- Engineering, manufacturing and project professionals
- Quality, operations and compliance professionals
- Sustainability, CSR and ESG professionals
- Professionals working with hospitals & healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

What does the programme cover?

Environmental assessment and monitoring, multi-industry safety, waste and effluent management, dust hazards, toxicology, EIA, ISO 14001/45001, occupational health, ergonomics, HIRA, HAZOCHEM, incident investigation and EHS law.

Is this for industry or for healthcare?

Both. The syllabus covers chemical, petrochemical, petroleum, pharma, engineering, construction and textile settings, and GIHS lists hospital and healthcare professionals among those who enrol.

Does it cover ISO 14001 and ISO 45001?

Yes, alongside OHSAS and national standards, with audit preparation treated as a practical skill rather than a reading exercise.

Does it cover environmental impact assessment?

Yes — EIA is a dedicated syllabus area, together with environmental assessment, sampling and monitoring.

How is AI actually used in EHS?

For trend analytics on observations and near-misses, exposure and emissions data review, computer-vision monitoring concepts, audit preparation, action tracking and drafting. The decisions stay with competent professionals.

Does this make me a statutory safety officer?

No. Statutory appointments depend on recognised qualifications, experience and the law where you work. The programme supports upskilling and career progression.

Who can enrol?

Graduates, engineers, EHS/HSE professionals and professionals from pharma, chemical, engineering, construction, manufacturing and healthcare.

Can working professionals enrol?

Yes. The programme is delivered online and by distance learning, with a Fast-Track option.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.

Health Management Programs

- Health Informatics
- Hospital Administration
- Pharma Management
- Hospital Planning & Management
- Medical Transcription
- Nursing Management
- Public Health Administration
- Health Insurance
- Blood Banking Management
- Medico-Legal Systems
- Medical Laboratory Technology
- Medical Radiology Technology
- Quality Management for Hospitals
