PROGRAMME OVERVIEW

Build Practical Knowledge in Ayurvedic Purification & Rejuvenation

Practical | Job-Oriented | Snehakarma | Swedakarma | Vamana · Virechana | Vasti · Nasya | Marma | AI Literacy

Panchakarma is Ayurveda's system of purification and rejuvenation — a structured sequence of preparation, procedure and aftercare designed to clear accumulated Ama and restore the balance of Vata, Pitta and Kapha. It is the part of Ayurveda that is most procedural, most scheduled and most dependent on getting the order of things right.

The GIHS Panchakarma programme teaches that sequence in full: the principles the system rests on, the anatomy and physiology behind it, the preparatory Snehakarma and Swedakarma procedures, the five main Karmas themselves, the massage and Marma work that surrounds them, and the diet, oils and treatment scheduling that hold a course of therapy together.

> **"Traditional Knowledge · Practical Skill · Responsible Application."**
>
> GIHS connects classical Ayurvedic learning with the practical detail a Panchakarma department actually runs on — procedure sequence, preparation, scheduling, oils, diet and documentation — so learners build workplace competency alongside their qualification.

Why This Programme Stands Out

- Complete Panchakarma sequence from Poorva Karma to Pashchat Karma
- Foundations, history, branches and basic principles of Ayurveda
- Anatomy and physiology as applied to Panchakarma practice
- Snehakarma — internal and external oleation, Abhyanga, Padabhyanga, Shiroabhyanga
- Swedakarma — all five forms of fomentation and their benefits
- Vamana, Virechana, Vasti and Nasya in detail
- Ayurvedic massage types, Marma and treatment scheduling
- Ayurvedic dietetic concepts and the commonly used oils
- NEW dedicated AI module for Panchakarma education and clinic workflows
- Certificate, PG Diploma and Fast-Track learning pathways

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 8 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 8 is the new Artificial Intelligence module.

MODULE 01 Foundations of Ayurveda

The framework everything else sits inside — where Ayurveda came from and how it reasons.

- Introduction to Ayurveda
- History of Ayurveda
- Branches of Ayurveda
- Basic principles of Ayurveda

MODULE 02 Anatomy, Physiology & Introduction to Panchakarma

The body as Panchakarma treats it, and the shape of the therapy as a whole.

- Anatomy and physiology — female and male
- Introduction to Panchakarma
- Preparatory processes of Panchakarma

MODULE 03 Snehakarma — Oleation Therapy

The preparation stage: softening and mobilising before anything is removed.

- Snehakarma — oleation treatment
- Internal oleation
- External oleation
- Abhyanga
- Padabhyanga — oleation of the feet
- Shiroabhyanga — oleation of the head
- Gandoosha — gargling

MODULE 04 Swedakarma — Fomentation

Heat as a clinical tool, and the five distinct ways Ayurveda applies it.

- Tapa Sweda — fomentation
- Upanaha Sweda
- Ushma Sweda — herbal steam and bolus bags
- Drava Sweda — sudation with liquids
- Anagneya Sweda — sudation without fire
- Benefits of Sweda

MODULE 05 The Panchakarma Procedures

The five principal Karmas themselves — what each clears, and when each is indicated.

- Vamana — induced vomiting
- Virechana — induced purgation
- Vasti — medicated enema
- Nasya — nasal medication
- Uses of Panchakarma therapies

MODULE 06 Ayurvedic Massage, Marma & Therapy Practice

The hands-on work that surrounds the main procedures and makes them tolerable.

- Various Ayurvedic treatments
- Different Panchakarma treatments
- Ayurveda massages
- Different types of massage in Ayurveda
- Marma — vital energy points

MODULE 07 Diet, Oils & Treatment Scheduling

What holds a course of therapy together between the procedure days.

- Ayurvedic dietetic concepts
- Commonly used oils and their uses
- Arrangement of Ayurvedic treatment schedules

MODULE 08 · NEW Artificial Intelligence in Panchakarma & Ayurveda Practice

Study Support · Wellness Documentation · Schedule Planning · Responsible AI

- Introduction to Artificial Intelligence and Generative AI for Ayurveda learners
- Using AI to organise Ayurveda and Panchakarma study notes
- AI-assisted revision summaries, flashcards and self-assessment questions
- … and 21 further topics — the full module is set out on page 5

MODULE 08 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Panchakarma & Ayurveda Practice

Study Support · Wellness Documentation · Schedule Planning · Responsible AI

This future-ready module introduces responsible applications of Artificial Intelligence and Generative AI in Ayurveda education and non-diagnostic Panchakarma workflows. AI is positioned as a support tool for learning, organisation, documentation and communication — not as a substitute for Ayurvedic clinical assessment, therapy selection or qualified supervision.

Key Topics Covered

- Introduction to Artificial Intelligence and Generative AI for Ayurveda learners
- Using AI to organise Ayurveda and Panchakarma study notes
- AI-assisted revision summaries, flashcards and self-assessment questions
- Prompt engineering for Panchakarma and Ayurveda education
- AI-assisted comparison tables for Ayurvedic concepts — with textbook and expert verification
- AI-assisted educational flowcharts for Purvakarma, Panchakarma and post-procedure care
- AI-assisted non-clinical wellness intake forms and documentation templates
- AI-assisted Panchakarma centre appointment and schedule organisation
- AI support for client education and pre- and post-session instructions, approved by professionals
- AI-assisted wellness diary, lifestyle tracker and follow-up documentation
- AI support for Ayurvedic diet education content — with qualified review
- AI-assisted organisation of information about commonly used oils and their applications
- AI for multilingual wellness communication and educational content
- AI-assisted literature-search planning and research-summary organisation
- Distinguishing traditional Ayurvedic concepts from modern biomedical evidence
- AI-assisted case-study learning using fictional or de-identified scenarios
- AI support for SOP and checklist drafting — hygiene, room readiness and documentation
- AI-assisted inventory and consumable tracking for wellness centres
- AI support for educational social-media, blog and awareness content
- AI-assisted FAQ development for Panchakarma wellness services
- AI for business workflow planning, enquiry handling and service communication
- Recognising hallucinations, unsafe health claims and unsupported treatment recommendations
- Privacy and confidentiality when handling client information
- Responsible AI — source checking, expert review and human-in-the-loop decision making

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI is a learning, documentation and communication aid. It must not diagnose a condition, prescribe a medicine, supplement or therapeutic diet, judge whether someone is medically fit for a therapy, or replace an appropriately qualified professional. Every health claim it produces is checked against approved course material and authoritative sources before use.

What This Module Adds to Your Career

Ayurveda practice is increasingly digital — online consultations, scheduling systems, educational content and record-keeping. AI literacy helps you organise a very large body of classical material, build revision structures, draft documentation and communicate clearly with clients in more than one language. The skill that matters most is the one this module trains hardest: recognising when an AI-generated therapy claim, contraindication or reference is simply invented, and checking it before it reaches anyone.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Create a Panchakarma learning map covering preparatory and principal procedures
- Develop a verified study guide for Snehakarma and Sweda Karma
- Prepare a fictional wellness-centre schedule and workflow
- Develop a hygiene and room-readiness checklist
- Identify unsafe or unsupported medical claims in sample AI-generated Panchakarma content

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

The programme is built around the practical detail of Panchakarma work: procedure sequence, preparation of the client, oil and herb selection, session documentation, aftercare and scheduling. Learners practise thinking the way a therapy department has to — what precedes what, what is contraindicated, what must be recorded, and when a case belongs with a more senior or differently qualified professional.

Career-Relevant Skills You Will Develop

- Ayurvedic principles and terminology
- Panchakarma procedure sequence
- Snehakarma and Swedakarma concepts
- Vamana, Virechana, Vasti and Nasya awareness
- Ayurvedic massage and Marma concepts
- Therapy scheduling and aftercare planning
- Ayurvedic dietetic concepts
- Oil and consumable knowledge
- Therapy documentation and client communication
- Responsible AI-assisted learning and workflow skills

Career & Professional Pathways

The current GIHS course page lists **Panchakarma therapy support, Ayurveda centre coordination and wellness-education pathways**. The programme can also support:

- Panchakarma therapy support roles
- Ayurveda clinic and centre assistance
- Wellness and Ayurveda centre coordination
- Ayurvedic wellness education
- Therapy scheduling and client-care coordination
- Resort, spa and wellness-retreat Ayurveda programmes
- Ayurveda content, training and academic support
- Wellness entrepreneurship for appropriately qualified persons

Roles involving diagnosis, prescription, independent Ayurvedic practice or protected professional titles require the recognised qualification, registration and authorisation that apply in your jurisdiction. This programme supports professional knowledge and career enhancement; appointment remains an employer decision.

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Panchakarma is the commercial engine of most Ayurveda centres — it is the service guests travel for and return for — and setting one up needs operational knowledge far more than it needs capital.

- Set up or manage a Panchakarma therapy unit with appropriately qualified staff
- Provide therapy-scheduling, protocol and documentation consulting to Ayurveda centres
- Develop wellness-retreat and resort Ayurveda programmes
- Deliver training for therapy assistants and centre support staff
- Advise on oils, consumables, hygiene standards and departmental SOPs

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

QUESTIONS

Frequently Asked Questions

What is Panchakarma?

It is Ayurveda's structured purification and rejuvenation therapy — a sequence of preparatory procedures, five principal Karmas and a defined aftercare stage, aimed at clearing accumulated Ama and restoring balance.

Does the programme cover all five Karmas?

Yes — Vamana, Virechana, Vasti and Nasya are each covered in the syllabus, along with the preparatory Snehakarma and Swedakarma stages and the uses of Panchakarma therapies.

Does it cover Ayurvedic massage and Marma?

Yes. Abhyanga, Padabhyanga, Shiroabhyanga, the different types of Ayurvedic massage and Marma (vital energy points) are all included.

Is diet part of the course?

Yes. Ayurvedic dietetic concepts and the commonly used oils and their applications are part of the syllabus, because aftercare and diet determine much of the result.

Can AI decide which therapy a person needs?

No. AI can organise study material, draft documentation and prepare educational content. Assessment, therapy selection and contraindication judgement stay with appropriately qualified practitioners.

Does this certificate let me practise Ayurveda independently?

No. Practice rights, prescribing authority and protected titles depend on recognised qualifications and registration in your jurisdiction. This is professional education.

Who can enrol?

The GIHS page lists graduates and postgraduates across medical, Ayurveda, pharmacy, nursing, life-science and allied backgrounds, and the programme is also open to any graduate or experienced professional.

Can working professionals enrol?

Yes. The programme is delivered online and by distance learning, with a Fast-Track option.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.
