This GIHS **Anesthesia** Management Program will provide and upgrade knowledge and skill in anesthesia technology and its management. Anesthesia enables the painless performance of medical procedures that would otherwise cause severe or intolerable pain to an unanesthetized patient, or would otherwise be technically unfeasible.

It will help to **upgrade knowledge** in all aspects of **blood banking, transfusion medicine, hematopoietic, cellular and gene therapies, and tissue transplantation.**

Anesthesia management entails a **broad range of factors related to characteristics of the hospital and anesthetic department** (operating room, preoperative and postoperative care unit, medical ward, and intensive care unit), training and education, quality and quantity of physician and non-physician staffing, availability and use of medical protocols, and standards for monitoring in the intraoperative and postoperative period.
