- ✚ INTERNATIONAL ACLAIMED WITH ISO & GOVT APPROVED
- ✚ LIFETIME FREE PERSONALIZED TUTORING FOR SUCCESS

Disaster and emergency can knock on a door anytime without any prior notice, it can be both natural and manmade; hence it is always necessary to be ready with an appropriate management plan to handle the **hazard and crises** caused. Disaster management can be defined as the management and organization of **responsibilities** and available resources for coping with various altruistic aspects of emergencies. National **Disaster Management Authority, abbreviated as NDMA**, is a regulatory Body of the Government of India, with a mandate to lay down policies for disaster management. Moreover, The **National Disaster Management Act (NDMA, India), 2005** is mandatory for all hospitals in India to have a disaster management contingency plan.

This program explores the theoretical and practical aspects of disaster and **emergency management**, and the course covers the management for risk reduction, mitigation, preparedness, response, recovery, and reconstruction by providing the opportunity to plan and prepare.
