Electroencephalogram (EEG) training course: An electroencephalograph technologist, or EEG technologist, provides assistance in the diagnosing and treatment of patients with neurological disorders. **EEG courses** for neurologists, such as an EEG technologist certificate program, can lead to a career in the field of neurology.

GIHS also offer **Electromyogram (EMG)**, your muscles move when nerve signals from the brain tell them to get to work. Electromyography measures how well your muscles respond to those electrical signals from brain. If the test picks up a problem, you may be diagnosed with what is called a neuromuscular disorder.

Nerve Conduction study (NCS), Nerve signals are electrical impulses that travel quickly throughout your nervous system. Sometimes, problems with the electrical activity in your nerves can cause pain, tingling, or weakness in your muscles. The EEG certificate syllabus is designed in consideration with all medical life science professional's eligibility in India and globally.
