PROGRAMME OVERVIEW

Build Practical Skills for Hospital Emergency & Disaster Management

Practical | Job-Oriented | Risk Analysis | Preparedness | Surge Capacity | Disaster Medicine | Logistics | AI Literacy

Hospitals have to keep working precisely when everything around them stops. A flood, a fire, a mass-casualty incident or an epidemic disrupts staff, power, supplies, access and capacity simultaneously — and the plan that was written but never rehearsed is the one that fails.

The GIHS Disaster Management programme covers healthcare and hospital management, hazards, risks and disasters, field skills, disaster theory, statistics and logistics, mitigation, preparedness and response, earth catastrophes, fire and explosion, natural and man-made disasters, disaster medicine, rehabilitation, reconstruction and recovery, strategies for survival, risk analysis techniques, resource analysis and mobilisation, the experience of vulnerability, disaster preparedness, logistics management, and the communication, participation and activation of the emergency preparedness plan.

> **"We Teach What the Job Requires."**
>
> GIHS teaches preparedness as something that is assessed, resourced, rehearsed and activated — not as a document that exists for an inspection.

Why This Programme Stands Out

- Hospital and healthcare disaster management as a complete discipline
- Hazards, risks and disasters, and risk-analysis techniques
- Field skills and disaster theory, statistics and logistics
- Mitigation, preparedness and response
- Natural and man-made disasters, earth catastrophes, fire and explosion
- Disaster medicine
- Rehabilitation, reconstruction and recovery
- Resource analysis and mobilisation, and logistics management
- The experience of vulnerability and strategies for survival
- Communication, participation and activation of the emergency preparedness plan
- NEW dedicated AI module for disaster management and emergency preparedness

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 8 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 8 is the new Artificial Intelligence module.

MODULE 01 Healthcare Management & Disaster Foundations

The organisation that must keep running, and the hazards that threaten it.

- Healthcare and hospital management
- Hazards, risks and disasters
- Understanding natural and man-made disasters
- Earth catastrophes, fire and explosion

MODULE 02 Disaster Theory, Statistics & Risk Analysis

The analytical basis — how risk is characterised before anything is planned.

- Disaster theory, statistics and logistics
- Risk analysis techniques
- The experience of vulnerability

MODULE 03 Mitigation & Preparedness

The work done long before the event, which decides how the event goes.

- Disaster mitigation
- Disaster preparedness — various aspects
- Strategies for survival

MODULE 04 Resources, Logistics & Field Skills

Getting people, supplies and capacity to the right place under pressure.

- Resource analysis and mobilisation
- Logistics management
- Field skills

MODULE 05 Response, Communication & Plan Activation

The moment of activation, and the communication that determines whether it works.

- Disaster response
- Communication, participation and activation of the emergency preparedness plan

MODULE 06

Disaster Medicine

Clinical care under conditions of scarcity — triage, surge and continuity.

- Disaster medicine

MODULE 07

Recovery, Rehabilitation & Reconstruction

The longest phase, and the one plans most often forget to cover.

- Rehabilitation
- Reconstruction
- Recovery

MODULE 08 · NEW

Artificial Intelligence in Disaster Management & Healthcare Emergency Preparedness

Risk Analysis · Early Warning · Surge Planning · Responsible AI

- AI fundamentals for disaster and emergency-management professionals
- AI-assisted hazard, vulnerability and risk-analysis concepts
- AI support for early-warning intelligence and situational awareness
- … and 11 further topics — the full module is set out on page 5

The Programme at a Glance

8
Modules, including the new AI module

3 / 4 / 12
Months — Certificate, Fast Track or PG Diploma

100%
Online & distance, study at your own pace

Lifetime
Free personal expert assigned to you

MCQ + Project
Online exam plus a 30-page project

2
International certificates awarded and shipped

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 08 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Disaster Management & Healthcare Emergency Preparedness

Risk Analysis · Early Warning · Surge Planning · Responsible AI

This dedicated module introduces practical and responsible applications of Artificial Intelligence, Machine Learning and Generative AI relevant to this field. It focuses on how AI can support professional efficiency, analysis, documentation and decision support while human oversight, confidentiality, data integrity, ethical practice and applicable organisational or regulatory requirements are maintained.

Key Topics Covered

- AI fundamentals for disaster and emergency-management professionals
- AI-assisted hazard, vulnerability and risk-analysis concepts
- AI support for early-warning intelligence and situational awareness
- AI-assisted emergency resource, logistics and capacity-planning concepts
- AI for hospital surge, patient-flow and continuity-planning scenarios
- AI-assisted emergency communication and information summarisation
- AI support for simulation, drills, scenario planning and preparedness exercises
- AI-assisted post-incident analysis, lessons learned and recovery planning
- AI for mass-casualty triage-support concepts, for awareness
- AI-assisted stock, consumable and critical-supply forecasting
- Generative AI for emergency plans, checklists and staff briefings
- Prompt engineering for emergency-preparedness professionals
- Data reliability, bias, cybersecurity and responsible use of AI during emergencies
- Human command and verification — AI supports but never replaces emergency leadership

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI is an assistive capability, not an authority. Learners are trained to verify AI-generated output against source data, protect confidential patient and organisational information, recognise hallucinations and bias, and use only approved or validated tools where procedures or regulations require it. Accountable decisions remain with qualified people.

What This Module Adds to Your Career

Healthcare management runs on information that nobody has time to analyse properly — indicators, incidents, complaints, utilisation, staffing, spend. AI changes that arithmetic, turning retrospective reporting into something closer to early warning, and turning documentation work from days into hours. The competency this module treats as central is verification: AI produces confident, well-formatted and sometimes entirely wrong answers, and in a healthcare organisation that lands on a patient, a regulator or a balance sheet.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Build a hazard and vulnerability analysis for a mock facility
- Prepare a surge-capacity and continuity plan from mock demand data
- Design a drill scenario and critique the AI-generated version of it
- Create a critical-supply forecasting exercise
- Review an AI-generated emergency plan for unsafe or unworkable assumptions

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

Learning is positioned around what the job actually asks for: departmental planning, service coordination, quality indicators and accreditation evidence, workforce and roster planning, budgets and utilisation, procurement and maintenance, information systems, documentation, audit preparation and management reporting — together with the AI-assisted versions of the same tasks, always finishing with the verification step.

Career-Relevant Skills You Will Develop

- Hazard, vulnerability and risk analysis
- Disaster mitigation and preparedness planning
- Emergency plan development and activation
- Surge capacity and continuity planning
- Resource analysis, mobilisation and logistics
- Disaster medicine awareness
- Emergency communication
- Drill design and preparedness exercises
- Recovery, rehabilitation and reconstruction planning
- AI-assisted emergency analytics

Career & Professional Pathways

The current GIHS course page lists **Hospital emergency preparedness, disaster coordination and continuity pathways**. The programme can also support:

- Disaster and Emergency Officer
- Disaster Recovery Manager
- Hospital Emergency Preparedness Coordinator
- Healthcare Safety Officer
- Emergency response and preparedness roles
- Hospital disaster management coordination
- Business continuity and recovery support
- Emergency planning and resource coordination
- Healthcare safety and resilience roles

The GIHS page also identifies Emergency Medical Technician as a career option. Clinical emergency-response roles such as EMT require separate recognised clinical training, certification, registration or authorisation; this programme complements rather than replaces those requirements.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

Healthcare management skill is portable — GIHS learners work across hospitals, diagnostics, insurance, pharmaceuticals, public health, technology and consulting, and a good number build their own practices.

Hospitals & hospital groups
Administration, operations, quality and planning

Diagnostic chains & laboratories
Operations, accreditation and multi-site work

Health insurance & TPAs
Claims, pre-authorisation and network coordination

Pharmaceutical & device companies
Commercial, regulatory and quality functions

Public health systems
Programme management, monitoring and evaluation

NGOs & development programmes
Project delivery, funding reports and field coordination

Healthcare IT & health-tech
Information systems, records and digital health projects

Consulting & accreditation
NABH and JCI readiness, audits and process improvement

Independent practice & ventures
Advisory, training, documentation and project services

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Emergency preparedness is a licensing and insurance requirement that most hospitals meet on paper and not in practice — which is precisely the gap a consultant fills.

- Provide hospital emergency and disaster preparedness consulting
- Design and run drills, simulations and preparedness exercises
- Develop emergency plans, continuity plans and command documentation
- Offer hazard, vulnerability and risk assessment services
- Deliver emergency-response training for healthcare teams

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- All graduates and postgraduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- B.Pharm / M.Pharm / Pharmacy Professionals
- B.Sc. / M.Sc. & Life-Science Graduates
- Nursing Professionals
- Medical Laboratory Professionals
- Medical IT Professionals
- Microbiology Professionals
- Biomedical / Biotechnology Professionals
- Hospital and healthcare administrators
- Professionals working with hospitals & healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

What does the programme cover?

Hazards, risks and disasters, field skills, disaster theory, statistics and logistics, mitigation, preparedness and response, natural and man-made disasters, disaster medicine, recovery and reconstruction, risk analysis, resource mobilisation, logistics and plan activation.

Is it specific to hospitals?

Yes — it is framed around healthcare organisations that must remain functional during an emergency, which is a different problem from general disaster management.

Does it cover disaster medicine?

Yes, as a dedicated syllabus area, alongside the operational and logistical content.

Does it cover recovery?

Yes — rehabilitation, reconstruction and recovery, which is the phase most plans under-specify.

How is AI used in emergency preparedness?

Hazard and vulnerability analysis, early-warning and situational awareness, resource and surge planning, drill scenario development, communication summarisation and post-incident analysis.

Can AI run an emergency response?

No. It supports analysis, planning and information flow. Command decisions in an emergency are human, accountable and time-critical.

Does this make me an Emergency Medical Technician?

No. EMT and similar clinical roles require separate recognised clinical training and certification.

Can working professionals enrol?

Yes. The programme is delivered online and by distance learning, with a Fast-Track option.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.
