PROGRAMME OVERVIEW

Build Structured Knowledge in Siddha Medicine

Practical | Job-Oriented | Gunapadam | Noi Nadal | Varma | Medicinal Botany | Siddha Pharmacy | AI Literacy

Siddha is one of India's oldest continuously practised systems of medicine, with its own physiology, its own diagnostic method, its own materia medica across the plant, mineral and animal kingdoms, and its own surgical and specialised branches. It is also one of the most systematically documented — which makes it teachable in a structured way.

The GIHS Siddha programme follows the classical subject structure: history and basic principles, anatomy and physiology in two parts, biochemistry and microbiology, medicinal botany and pharmacy, Gunapadam across both the plant and the mineral-animal kingdoms, Noi Nadal in both Siddha and modern pathology, community medicine, forensic medicine and toxicology, and the clinical branches — general medicine, special medicine including Yoga and Varma, surgery, and obstetrics, gynaecology and paediatrics.

> **"Traditional Knowledge · Structured Study · Responsible Application."**
>
> GIHS presents Siddha through a structured academic sequence — principles, basic sciences, materia medica, diagnosis and clinical branches — supported by documentation, research literacy and digital skills.

Why This Programme Stands Out

- Complete classical subject structure of Siddha medicine
- History and basic principles of Siddha, and patient management
- Anatomy (Udal Koorugal) and physiology (Udal Thathuvam) in two parts each
- Biochemistry (Uyir Vedhiyal) and microbiology (Nunuyir Iyal)
- Medicinal botany and the basic principles of Siddha pharmacy
- Gunapadam — plant kingdom, and metals, minerals and animal kingdom
- Noi Nadal — Siddha pathology and principles of modern pathology
- Hygiene and community medicine, forensic medicine and toxicology
- General medicine, special medicine including Yoga and Varma, surgery and bone setting
- Obstetrics, gynaecology and paediatrics
- NEW dedicated AI module for Siddha learning, documentation and research

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 9 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 9 is the new Artificial Intelligence module.

MODULE 01 Foundations & Patient Management

Where Siddha comes from, what it assumes about the body, and how a patient is approached.

- Siddha Maruthuva Adipadai Thathuvangalum Varalarum — history and basic principles
- Patient management

MODULE 02 Anatomy & Physiology

Structure and function, taught in the classical two-part sequence.

- Udal Koorugal I — anatomy, part I
- Udal Koorugal II — anatomy, part II
- Udal Thathuvam I — physiology, part I
- Udal Thathuvam II — physiology, part II

MODULE 03 Biochemistry & Microbiology

The modern basic sciences that sit alongside the classical account.

- Uyir Vedhiyal — biochemistry
- Nunuyir Iyal — microbiology

MODULE 04 Medicinal Botany & Siddha Pharmacy

Identifying the raw material, and turning it into a medicine correctly.

- Maruthuva Thavara Iyal — medicinal botany
- Marunthiyal Adippadaihalum — basic principles of pharmacy
- Marunthu Seiuraikal — preparation methods

MODULE 05 Gunapadam — Siddha Materia Medica

The materia medica itself, across all three kingdoms Siddha draws on.

- Gunapadam I — Mooligai, the plant kingdom
- Gunapadam II — Thathu and Vilanginam: metals, minerals and the animal kingdom

MODULE 06 Noi Nadal — Diagnosis & Pathology

Siddha's own diagnostic method, taught beside the modern pathology it must converse with.

- Noi Nadal I — Siddha pathology
- Noi Nadal II — principles of modern pathology

MODULE 07 Community Medicine, Forensic Medicine & Toxicology

Practising lawfully and at population scale — hygiene, evidence and poisons.

- Noi Anugavidhi Ozhukkam — hygiene and community medicine
- Sattam Sarntha Maruthuvamum Nanju Noolum — forensic medicine and toxicology

MODULE 08 Clinical Siddha Practice

The clinical branches, including the specialised Varma and bone-setting traditions.

- Maruthuvam Pothu — general medicine
- Sirappu Maruthuvam including Yoga and Varma — special medicine
- Aruvai Maruthuvam — surgery, including bone setting and dental diseases
- Sool, Magalir Maruthuvam and Kuzhanthai Maruthuvam — obstetrics, gynaecology and paediatrics

MODULE 09 · NEW Artificial Intelligence in Siddha Medicine

Study Support · Medicinal-Plant Research · Documentation · Responsible AI

- Introduction to Artificial Intelligence, Machine Learning and Generative AI for Siddha learners
- Prompt engineering for Siddha education and professional research
- AI-assisted study notes, concept maps, flashcards and MCQ generation
- … and 21 further topics — the full module is set out on page 5

The Programme at a Glance

MODULE 09 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Siddha Medicine

Study Support · Medicinal-Plant Research · Documentation · Responsible AI

This future-ready module introduces responsible applications of Artificial Intelligence and Generative AI for Siddha education, research organisation, academic case learning and professional documentation. AI is an assistive learning tool — not an autonomous system for diagnosis, medicine selection, dosage or patient-care decisions.

Key Topics Covered

- Introduction to Artificial Intelligence, Machine Learning and Generative AI for Siddha learners
- Prompt engineering for Siddha education and professional research
- AI-assisted study notes, concept maps, flashcards and MCQ generation
- AI-assisted anatomy, physiology, biochemistry and microbiology revision
- AI support for Siddha terminology organisation and multilingual learning
- AI-assisted medicinal-botany learning and plant-information organisation — with botanical verification
- AI-assisted literature-search strategies for Siddha medicine
- AI support for summarising research papers and organising references
- AI-assisted comparison of traditional Siddha and modern biomedical terminology
- AI support for pharmacognosy and pharmacy educational tables — with expert verification
- AI-assisted academic learning on Gunapadam categories
- AI-assisted pathology learning and differential-concept tables, for education only
- AI support for community-health and hygiene education materials
- AI-assisted toxicology and forensic-medicine study organisation
- AI-assisted de-identified fictional case-study learning
- AI support for patient-education drafts for use by qualified professionals
- AI-assisted documentation templates and follow-up records
- AI support for Yoga and Varma educational content — with qualified review
- AI-assisted research-data organisation, academic posters and presentations
- AI-assisted educational blogs, FAQs and awareness materials
- Recognising hallucinated diagnoses, formulations, doses and contraindications
- Special caution with metals and minerals — AI must never determine preparation, purification, dosage or safety
- Privacy, confidentiality and de-identification of patient information
- Responsible AI governance, source traceability and clinical verification

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI is a learning, documentation and communication aid. It must not diagnose a condition, prescribe a medicine, supplement or therapeutic diet, judge whether someone is medically fit for a therapy, or replace an appropriately qualified professional. Every health claim it produces is checked against approved course material and authoritative sources before use.

What This Module Adds to Your Career

Siddha carries an enormous body of terminology, formulations and classical references, much of it in Tamil, and organising that material is exactly what AI is good at — glossaries, comparative tables, concept maps, revision schedules, literature summaries. It is also exactly where AI fabricates most confidently: a plausible formulation, a dosage that was never written, a citation to a text that does not say it. The module trains the verification habit that makes the first useful and the second harmless.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Create a Siddha curriculum learning map
- Develop a verified medicinal-botany study table
- Prepare a Siddha terminology and modern-science glossary
- Develop a de-identified fictional case-study template
- Identify unsafe claims in AI content involving herbs, metals, minerals or treatment

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

The programme is organised around structured academic competence: terminology, materia medica organisation, diagnostic concepts, pharmacy preparation, case documentation and research reading. For qualified practitioners it supports continuing professional development; for other eligible learners it builds subject, academic, research and documentation competence without conferring clinical-practice rights.

Career-Relevant Skills You Will Develop

- Siddha principles and classical terminology
- Anatomy and physiology in the Siddha framework
- Medicinal botany and pharmacy concepts
- Gunapadam — materia medica organisation
- Noi Nadal diagnostic concepts
- Modern pathology awareness
- Community medicine, forensic and toxicology awareness
- Clinical branch familiarity including Varma and bone setting
- Case documentation and research organisation
- Responsible AI-assisted learning and verification

Career & Professional Pathways

The current GIHS course page lists **Siddha academic, research, clinic-support and documentation pathways**. The programme can also support:

- Siddha academic and teaching support
- Siddha research support and literature review
- Siddha clinic documentation and administration
- Traditional-medicine pharmacy and quality support
- Community health and awareness programmes
- Educational content and digital learning support
- Professional development for qualified Siddha practitioners
- Traditional-medicine entrepreneurship for appropriately qualified persons

Clinical Siddha practice, diagnosis, prescribing and protected professional titles require the recognised qualification, registration and authorisation applicable in your jurisdiction. This programme is professional education and complements — it does not replace — a statutory Siddha or medical qualification.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost

Where Our Graduates Are Making an Impact

Traditional medicine and wellness is a global market — GIHS learners work in Ayurveda and homeopathy practice, wellness centres and resorts, integrative hospitals, nutrition and fitness services, education and their own ventures.

Ayurveda & homeopathy clinics
Practice support, documentation and education

Wellness centres & resorts
Therapy programmes and centre coordination

Integrative & AYUSH hospitals
Departmental support, protocols and quality systems

Panchakarma & therapy units
Procedure scheduling, hygiene standards and aftercare

Nutrition, fitness & lifestyle
Diet planning, counselling and wellness programmes

Maternal & family wellness
Garbhsanskar, antenatal and parent-education programmes

Pharmaceutical & herbal products
Formulation knowledge, quality and regulatory support

Education, content & research
Teaching, academic support, writing and digital content

Independent practice & ventures
Classes, retreats, consulting and online programmes

WORKING GLOBALLY — India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Traditional-medicine knowledge is increasingly in demand for content, research support, quality documentation and product work — roles that sit outside clinical practice and are open to a wider range of learners.

- Provide Siddha and traditional-medicine content, translation and education services
- Support research documentation and literature-review work
- Offer clinic documentation, administration and workflow support
- Develop community health-awareness and education programmes
- Support traditional-medicine product, quality and regulatory documentation

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- All graduates and postgraduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- B.Pharm / M.Pharm / Pharmacy Professionals
- Occupational Therapists
- B.Sc. / M.Sc. & Life-Science Graduates
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology Professionals
- Biomedical / Biotechnology Professionals
- Yoga, wellness and nutrition professionals
- Professionals working with hospitals & healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

What is Siddha medicine?

It is one of India's classical systems of medicine, with its own physiology, diagnostic method, materia medica and clinical branches, practised principally in South India and recognised within the Indian traditional-medicine framework.

Does the programme cover Gunapadam?

Yes, in both parts — Mooligai (the plant kingdom) and Thathu and Vilanginam (metals, minerals and the animal kingdom).

Does it cover Varma?

Yes. Sirappu Maruthuvam — special medicine including Yoga and Varma — is part of the clinical branch of the syllabus.

Is modern pathology included?

Yes. Noi Nadal is taught in two parts: Siddha pathology and the principles of modern pathology, so learners can work across both vocabularies.

Does it cover surgery and bone setting?

Yes — Aruvai Maruthuvam, which includes bone setting and dental diseases.

Can AI select a Siddha medicine or dosage?

No. AI can organise study material, build glossaries and draft documentation. Formulation, dosage and treatment decisions require a qualified practitioner — and AI invents plausible formulations, which the module teaches learners to catch.

Does this certificate authorise Siddha practice?

No. Practice rights and protected titles depend on recognised qualification and registration in your jurisdiction.

Can working professionals enrol?

Yes. The programme is delivered online and by distance learning, with a Fast-Track option.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.
