PROGRAMME OVERVIEW

Build Future-Ready Skills for Medical Scribing & Clinical Documentation

Practical | Job-Oriented | EHR | SOAP Notes | Medical Terminology | Clinical Documentation | HIPAA | AI Literacy

The GIHS Medical Scribe Program develops professional knowledge for documentation-intensive healthcare environments. The curriculum covers the clinical environment, medical records and EHRs, scribe duties and professionalism, medical terminology and abbreviations, medications, pathophysiology, medical charting, SOAP notes, history and physical examination documentation, diagnostic tests, assessment and plan, medical decision-making documentation, coding awareness and HIPAA.

A medical scribe is a clinical paraprofessional responsible for documentation connected with specialist patient interactions — recording, entering and maintaining information in the electronic health record, collecting and organising data, handling correspondence and supporting the clinical workflow.

> **"We Teach What the Job Requires."**
>
> Medical scribing demands accuracy, speed, medical-language competency, professional communication, confidentiality and the ability to organise clinical information without exceeding the scribe's defined scope of practice. Every module is built around those demands.

Why This Programme Stands Out

- Clinical environment and healthcare-team orientation
- EHR / Electronic Medical Record fundamentals
- Scribe role, duties, scope, professionalism and attestation
- Medical terminology, abbreviations and common medications
- System-wise pathophysiology across eleven body systems
- SOAP notes and complete medical-chart structure
- Chief Complaint, HPI, ROS and patient histories
- Vital signs, physical-exam and diagnostic-test documentation
- Assessment & Plan and medical decision-making documentation
- ICD-10 and CPT coding awareness
- Multiple charting practice scenarios
- HIPAA, Protected Health Information, Privacy and Security
- NEW dedicated AI module for medical scribing & clinical documentation

REVISED SYLLABUS

Curriculum, Module by Module

The full GIHS syllabus, regrouped into 7 clearly sequenced modules so you can see exactly what each stage of the programme teaches and why it comes where it does. Module 7 is the new Artificial Intelligence module.

MODULE 01 The Clinical Environment & the Scribe Role

Where you will work, who you will work with, and exactly what a scribe may and may not do.

- Clinical settings and the clinical care team
- Electronic Medical Records — what they are and who uses them
- Scribe duties and scope of practice
- Scribe professionalism and attestation
- A typical day of a scribe

MODULE 02 Physician Reimbursement & Coding Awareness

Why documentation detail matters financially — the link between what you write and what the encounter can be coded as.

- Medical coding and billing
- ICD-10 codes
- CPT codes
- Medical coding changes and updates

MODULE 03 Medical Terminology & Abbreviations

The language itself, built from word roots up through the abbreviations you will meet in every note.

- Medical terminology introduction
- Body position and anatomical movement
- Conditions and symptoms
- General, prescription, condition and anatomy abbreviations
- Medication overview and common drugs

MODULE 04 Systemic Pathophysiology

Disease processes system by system, so that what the clinician dictates makes sense as you type it.

- Musculoskeletal, respiratory and cardiovascular systems
- Nervous, endocrine and gastrointestinal systems
- Urinary, reproductive and lymphatic systems
- Immune and integumentary systems

MODULE 05 Medical Charting & EHR Documentation

The heart of the programme — building a complete, accurate chart from the encounter, with repeated practice scenarios.

- Overview of medical charts; SOAP note; EHR charts and notes
- Subjective — Chief Complaint, HPI, Review of Systems, patient histories
- Objective — vital signs, physical exam and detailed exams
- Diagnostic tests — common labs, imaging, EKG, in-office procedures
- Assessment & Plan and documenting medical decision making
- Subjective, physical-exam, A&P and full charting practice scenarios
- Levels of chart coding

MODULE 06 HIPAA, Privacy & Information Security

The legal floor under everything you do with patient information.

- What HIPAA is; Protected Health Information (PHI)
- Regulated entities
- HIPAA Privacy Rule and Security Rule
- HIPAA compliance in healthcare
- Permissible disclosure and use; HIPAA violations

MODULE 07 · NEW Artificial Intelligence in Medical Scribing & Clinical Documentation

AI-Assisted Documentation · Ambient Scribing · EHR Productivity · Responsible Human Verification

- Introduction to AI, NLP, speech recognition, Generative AI and Large Language Models in healthcare
- Evolution from traditional scribing to AI-assisted and ambient clinical documentation
- AI-assisted conversion of clinical conversations into structured documentation
- … and 19 further topics — the full module is set out on page 5

The Programme at a Glance

Every module is backed by a personal subject expert assigned to you for life at no cost — email or call whenever a topic needs explaining, and a session can be arranged around your queries.

MODULE 07 · NEW HIGHLIGHT MODULE

Artificial Intelligence in Medical Scribing & Clinical Documentation

AI-Assisted Documentation · Ambient Scribing · EHR Productivity · Responsible Human Verification

This module introduces responsible applications of Artificial Intelligence, Natural Language Processing, speech technologies and Generative AI in medical-scribing workflows. It prepares you for AI-enabled healthcare environments while making clear that AI-generated documentation must be reviewed, corrected and authenticated by responsible healthcare professionals.

Key Topics Covered

- Introduction to AI, NLP, speech recognition, Generative AI and Large Language Models in healthcare
- Evolution from traditional scribing to AI-assisted and ambient clinical documentation
- AI-assisted conversion of clinical conversations into structured documentation
- AI support for SOAP-note drafting and clinical-note structuring
- AI-assisted extraction of Chief Complaint, HPI, ROS, histories and examination information
- AI support for organising diagnostic tests, imaging, laboratory and procedure information
- AI-assisted summarisation of longitudinal clinical information and prior notes
- AI concepts for identifying missing, inconsistent or conflicting documentation
- AI-assisted terminology expansion and abbreviation review
- AI support for spelling, grammar, punctuation and documentation quality
- AI-assisted ICD-10 / CPT coding support — with coder and clinician verification
- AI support for clinical documentation improvement and completeness checks
- AI-assisted visit summaries and structured follow-up documentation
- AI for workflow prioritisation in high-volume documentation settings
- Prompt engineering for medical scribes and documentation professionals
- How to review and edit AI-generated notes for accuracy, relevance and completeness
- Recognising hallucinated diagnoses, medications, symptoms, findings and test results
- Preventing AI from introducing facts the clinician never documented
- Source-grounded documentation — observed versus dictated versus AI-inferred information
- HIPAA / PHI privacy principles when using AI-enabled documentation tools
- Bias, context loss and clinical-language ambiguity in AI-generated notes
- Audit trails, accountability and human-in-the-loop verification

THE RESPONSIBLE BOUNDARY

Anyone can generate an answer with AI. The professional skill — and the one employers are now paying for — is knowing how to find what the AI got wrong.

AI assists documentation. It does not independently diagnose, prescribe or make clinical decisions, and it never authenticates its own output.

What This Module Adds to Your Career

Medical documentation is becoming rapidly more technology-enabled. Understanding AI-assisted and ambient documentation workflows helps future scribes adapt to changing EHR environments and develop skills beyond simple transcription — documentation quality review, structured information extraction, AI-output verification and clinical workflow support. The most valuable future skill is not generating a note with AI; it is knowing how to identify what AI got wrong.

AI-Enhanced Practice Exercises

Applied work that builds the verification habit, not just the prompting habit:

- Compare a source encounter against an AI-generated SOAP note
- Identify hallucinated details in a drafted chart
- Correct terminology and check for missing information
- Prepare a structured chart summary from raw encounter data
- Judge whether AI-generated documentation stays faithful to its source

HOW YOU STUDY & WHERE IT TAKES YOU

Study Method, Certification, Skills & Career Pathways

Study Methodology

- Freelance, self-paced method of study around your work schedule.
- Study the books and course material provided with your enrollment.
- Note down your queries as you progress through each module.
- Contact your assigned expert by email or phone at any time.
- Experts respond by mail, by call, or arrange a session based on your queries.
- Lifetime expert support to keep raising your knowledge and expertise.
- All content is based on live cases and industry best practice.

Mode of Examination

- Login details for the online examination are issued on completion of the programme duration.
- A 7-day window is given to appear for the online examination.
- The examination pattern is Multiple Choice Questions (MCQ).
- A PowerPoint project of minimum 30 pages on a topic of your own choice.
- Successful candidates are awarded two certifications (Degree and Transcriptional Degree).

Learning Mode, Assessment & Certification

Mode	Online and distance learning, designed for working professionals.
Assessment	Online and distance examinations (MCQ / theoretical) and/or projects.
Certification	GIHS certificate awarded to successful candidates on completion of applicable requirements.
Career support	Placement support and CV-forwarding assistance for successful candidates.
Verification	Employers can confirm certificate authenticity through the official GIHS verification process.

Verified by GIHS itself — not by a third party. Every certificate carries its own certificate ID. An employer, university or registration body can confirm it directly at www.gihsonline.com/verify-certification — no third-party verification agency and no fee.

Practical & Job-Oriented Learning

The programme connects medical terminology and pathophysiology with realistic documentation tasks: SOAP notes, HPI, ROS, physical examination, diagnostic tests, assessment and plan organisation, and EHR charting — with repeated practice scenarios throughout.

Career-Relevant Skills You Will Develop

- Medical terminology and abbreviations
- Clinical environment and care-team understanding
- EHR and medical-record documentation
- SOAP-note structure
- HPI, ROS and patient-history documentation
- Physical-exam and diagnostic-test charting
- Medical decision-making documentation
- ICD-10 / CPT coding fundamentals
- HIPAA and PHI awareness
- AI-assisted documentation review and quality control
- Source verification and hallucination detection

Career & Professional Pathways

The current GIHS course page lists **Medical Scriber, Medical Scriber Specialist, Clinical Data Coordinator and Medical Billing Executive**. The programme can also support:

- Medical Scribe / Medical Scriber
- Medical Scribe Specialist
- Clinical Documentation Support
- Clinical Data Coordinator
- Medical Billing / Documentation Executive
- EHR Documentation Support
- AI-Assisted Medical Documentation Reviewer / Quality Support
- Virtual Medical Scribe support roles

Specific job titles, clinical responsibilities and access to patient information are determined by the employer, applicable privacy requirements and the candidate's qualifications and training. Documentation, EHR, terminology and AI-review skills are relevant to technology-enabled and remote documentation environments, but remote-work eligibility depends on employer systems and recruitment criteria.

PLACEMENT & CAREER ENHANCEMENT

What GIHS Does for Your Career After the Course

CAREER ENHANCEMENT INCLUDED FREE WITH EVERY ENROLMENT

Exclusive FREE CV & Interview Coaching — worth ₹9,999

FREE
worth ₹9,999

Join a GIHS programme now and unlock complimentary access to TopCV Coach, giving you the professional resume and interview skills you need to launch your career with confidence. Your profile is also posted on the TopCV Coach website, where a large recruiter and employer network is active.

Professional resume building
Build a CV that reads the way recruiters in healthcare actually screen.

Interview skills coaching
Practise and sharpen how you present your qualification and your new AI literacy.

Profile posted on TopCV
Your profile goes live on topcvcoach.com, in front of a large employer network.

No extra cost
Worth ₹9,999, included free with your GIHS enrolment.

TopCV Interview — Delivered with **www.topcvcoach.com** · included free with every GIHS programme enrolment

Where Our Graduates Are Making an Impact

GIHS learners go on to contribute across healthcare and the industries that support it — in clinical services and documentation, diagnostics, public health, administration, technology and their own ventures.

Hospitals & clinics
Departmental support, documentation, quality and coordination

Diagnostic & imaging services
Technical support, workflow and reporting quality

Public health systems
Community programmes, health education and project support

Healthcare BPO & documentation
Transcription, scribing, coding and records

Healthcare IT & health-tech
Clinical systems, data services and digital health

Pharmaceutical & device companies
Medical affairs, training and field support

Insurance, TPA & claims
Medical documentation, review and coordination

NGOs & community programmes
Awareness, prevention and programme delivery

Independent practice & ventures
Education, wellness, documentation and consulting

WORKING GLOBALLY: India · UK · USA · Canada · Australia · New Zealand · UAE & Gulf · Saudi Arabia · Qatar · Oman · Russia · Germany · Ireland · Singapore · Malaysia · Africa · Europe

Placement support. More than 2,000 GIHS professionals are now working in well-known organisations worldwide, many of them after building CV and interview skills through the free TopCV Coach programme. GIHS shares your profile globally for career growth. Successful candidates receive placement support and their CVs may be forwarded to various organisations. Final employment remains subject to employer selection and role-specific eligibility.

Business & Entrepreneurship Value

Clinical documentation is one of the fastest-growing outsourced services in healthcare, and much of it is delivered remotely by small specialist teams rather than large vendors.

- Start or manage a medical-scribing and clinical-documentation service for clinics
- Offer remote or virtual scribe support to individual practices and specialists
- Build a documentation quality-review and AI-output verification service
- Provide EHR onboarding, template design and charting-standard training to practices

Any regulated clinical service must only be provided within your lawful professional scope and applicable registration requirements. Career titles, eligibility and the right to practise depend on your prior qualification, experience, employer criteria and local regulation.

ENROLMENT

Three Flexible Learning Options

Programme	Duration	Indian Fee	International	Positioning
Certificate Program	3 Months	**₹22,999**	**450 USD**	Basic foundation programme — core knowledge first
Post Graduate Diploma Program	1 Year	**₹32,999**	**699 USD**	Advanced and career-oriented — full depth at a steady pace
Fast Track PG Diploma Program MOST CHOSEN	4 Months	**₹36,999**	**750 USD**	Same advanced syllabus — flexible, finish at your own pace

Both advanced options carry the same career-oriented syllabus and the same two international certificates. The Fast Track is simply flexible — finish as quickly as your own pace allows and step into a fast-growing job market sooner. The Certificate Program is the basic, foundation-level option.

Printed books are optional
Online study material is included with every enrolment. Add the printed books at enrolment if you would like them shipped.

₹2,999 additional (India) | **99 USD** additional (International)

EMI available on credit cards Convert your fee into easy monthly instalments — ask admissions when you enrol.

All modes of payment are available. Fees may be subject to applicable taxes, exchange rates or future revision.

What Our Candidates Say

★★★★★ 300+ Google reviews

"I recently completed my Post Graduation in Pregnancy and Child Care from GIHS and it was a wonderful experience."
Dr Fatema Ebrahim

"One of the best institutions... Course is carefully structured and detailed. Management is very well organised and prompt in assistance."
A V

"This course has been a game-changer for me, providing the knowledge and skills necessary to succeed on a global platform."
Akram Sabiq

"They have a very good independent study methodology and the subject matter is really good... the Institute of Health was a wise choice."
Andrea Del Pilar

"From the day 1 to till date Chethan assisted very well... the studies are very detailed and made interesting."
Sarah Lilly, MBA

Admission Procedure START ANY DAY

1. **Apply online — any day**
   Enrol at www.gihsonline.com / Apply Online. Admissions stay open all year — no batch to wait for.
2. **Confirm your fee**
   No hidden charges. Payment within 7 days of enrollment.
3. **Receive your study material**
   Online access within 48 hours; printed books shipped if you add them.
4. **Get your personal expert**
   A professional subject expert is assigned to you for lifetime support at no cost.
5. **Complete exam and project**
   Online examination plus a project submission.
6. **Receive your certificates**
   Two international certificates are awarded and shipped.

Who Can Enrol

LISTED ON THE GIHS COURSE PAGE

- Science Graduates
- MBBS / BDS / BHMS / BAMS / BPT / BUMS
- B.Sc. / M.Sc. Graduates
- Life-Science Professionals
- IT Professionals interested in healthcare documentation
- Medical Laboratory Professionals
- Nursing Professionals
- Microbiology Professionals
- Biomedical / Biotechnology Professionals
- Professionals working with hospitals and healthcare organisations

ALSO OPEN TO

- Any graduate from any discipline
- Working professionals with relevant work experience
- Entrepreneurs planning to start a healthcare or allied venture
- Managers and administrators running a healthcare organisation

Any graduate, and any professional with relevant work experience, may enrol — including those who intend to start, run or manage a healthcare or allied organisation.

QUESTIONS

Frequently Asked Questions

Can AI automatically create SOAP notes?

AI can assist in structuring SOAP notes, but it may omit information or introduce unsupported facts. A trained reviewer must compare the output with the source encounter and correct it.

What is the biggest risk of AI in medical scribing?

Hallucination — AI generating a diagnosis, medication, symptom, examination finding or other detail that was never documented. Recognising and preventing this is a core skill in the module.

Does AI replace medical scribes?

AI changes the workflow rather than eliminating the need for documentation quality. Medical terminology, context, source verification, privacy and quality review remain human skills.

Does the course cover SOAP notes and EHR documentation?

Yes. SOAP notes, EHR charts and notes, and full charting workflows are major components, with multiple practice scenarios.

Does the programme cover ICD-10 and CPT?

Yes. Medical coding and billing awareness includes both ICD-10 and CPT codes.

Can AI be used with patient data?

Only in accordance with applicable privacy requirements and organisational policy. Sensitive patient information should not be entered into unapproved AI systems.

Does it cover pathophysiology?

Yes — eleven body systems, from musculoskeletal through to integumentary.

Can working professionals enroll?

Yes. The programme is delivered through online and distance learning, with a Fast-Track option.

What is included in the programme fee?

Course material with the latest updates, online access within 48 hours, printed books shipped with your enrolment, a personal subject expert for life at no cost, the online examination and project assessment, and two international certificates on successful completion. There are no hidden charges.

Is the TopCV Coach access really free?

Yes. Every GIHS enrolment now includes complimentary TopCV Coach access worth ₹9,999 for professional resume building and interview skills, and your profile is posted on the TopCV website where a large recruiter network is active.

Can I use this programme to start my own practice or venture?

Yes, within your lawful professional scope. The Business & Entrepreneurship section of this brochure sets out the non-clinical services, education and consulting work the knowledge supports. Regulated clinical services require the appropriate qualification and authorisation.

I am not from a clinical background. Can I still enrol?

Yes. Any graduate from any discipline may enrol, as can working professionals with relevant experience, entrepreneurs and managers of healthcare or allied organisations.

No batch to wait for — start the day you enrol Admissions stay open every day of the year — enrol today and begin at once.

ABOUT THE INSTITUTE

Global Institute of Health Science

Global Institute of Health Science is a pioneer in health science education, especially in distance and online learning, with more than 15 years of experience and international exposure. GIHS is an ISO 21001:2018 certified health science institute, globally acclaimed, and certified with copyright approval from IPR, Government of India. GIHS also holds international certification from UASL UK for its Quality Control Management System.

- **Excellence for health professionals** — Programmes built around what healthcare employers actually ask for.
- **15+ years with international exposure** — A student and professional base across India, UK, USA, Canada, UAE, Russia and Australia.
- **ISO certified and government approved** — ISO 21001:2018, IPR Government of India copyright approval and UASL UK quality certification.
- **Lifetime free personalised tutoring** — A dedicated subject expert assigned to you at no cost, for life.

More Ways to Build Your Career

GIHS programmes help professionals get a strong start in the healthcare field. These courses are ad-hoc to a professional career and provide the additional benefit of being part of a global learning organisation.
